SUPPLEMENTARY INFORMATION: DOE published a NOPR in the *Federal Register* to make available and invite public comments on its analysis regarding potential energy conservation standards for hearth products. 80 FR 7082 (Feb. 9, 2015). The notice set a deadline for the submission of written comments by April 10, 2015. RH Peterson Co. requested an extension of the public comment period, stating that additional time is necessary to review the published analysis in order to prepare and submit comments. DOE has determined that extending the comment period to allow additional time for interested parties to submit comments is appropriate based on the foregoing reason. DOE believes that extending the comment period by 30 days will provide the public with sufficient time to submit comments responding to DOE's analysis. Accordingly, DOE will consider any comments postmarked by May 11, 2015, and deems any comments received by that date to be timely submitted.

Issued in Washington, DC, on April 1, 2015.
