#### **SUPPLEMENTARY INFORMATION:**

On January 13, 2016, the U.S. Department of Energy (DOE) published a notice of proposed rulemaking (NPR) for ceiling fans energy conservation standards in the Federal Register to make available and invite comments on the analysis for ceiling fans

energy conservation standards. 81FR 1687. The notice provided for the written submission of comments by March 14, 2016, and oral comments were also accepted at a public meeting held on February 3, 2016. At the public meeting, various stakeholders have requested an extension of the comment period to consider the NOPR, technical support documents and public meeting presentation, and to prepare and submit comments accordingly. On March 2, American Lighting Association sent a written request for 30-day comment period extension due additional testing manufacturers have to conduct to review their existing products against the ceiling fan test procedures SNOPR, published in the Federal Register on June 3, 2015, and the conservation standards NOPR.

DOE has determined that an extension of the public comment period is appropriate based on the foregoing reason. DOE will consider any comments received by midnight of April 14, 2016, and deems any comments received by that time to be timely submitted.

Issued in Washington, DC, on March 10, 2016.
