SUPPLEMENTARY INFORMATION: On July 30, 2015, ASRAC met and unanimously passed the recommendation to form a dedicated purpose pool pumps (DPPP) working group to meet and discuss and, if possible, reach consensus on proposed Federal rules that would apply to this equipment. The ASRAC Charter allowed for 3 months of working group meetings to establish the scope, metric, definitions, and test procedure for dedicated purpose pool pumps and decide on a path forward at that time. The working group met this requirement and now more time is required to discuss potential energy conservation standards for this equipment. On January 20, 2016, ASRAC met and recommended that the DPPP Working Group continue its work to develop and recommend potential energy conservation standards for this equipment. This notice announces the next series of meetings for this working group.
