

## **Sustainable Buildings Checklist**

The Sustainable Buildings Checklist evaluates sustainability in existing buildings. It was first developed for US federal building managers for compliance with the **Federal Guiding Principles for High Performance Sustainable Buildings**. It is also a valuable tool for evaluating the sustainability of non-government buildings.

#### Checklist Complete: 0%\*

Property Name: Administrative Building of America Agency: Not Applicable U.S. Federal Real Property Unique Identifier: Not Applicable

Target Date of Compliance: Actual Date of Compliance: Checklist Manager:

## \* Checklist completion percentage includes "Yes" and "Not Applicable" responses.

Status	Guiding Principle
	1. Employ Integrated Assessment, Operation, and Management Principles
	1.1. Team
	1.2. Goals
	1.3. Plan
	1.4. Occupant Feedback
	1.5. Commissioning
	2. Optimize Energy Performance
Not Assessed	2.1. Energy Efficiency
	2.2. Energy Efficient Products
	2.3. Onsite Renewable Energy
	2.4. Measurement and Verification
	2.5. Benchmarking
	3. Protect and Conserve Water
Not Assessed	3.1. Indoor Water
Not Assessed	3.2. Outdoor Water
	3.3. Storm Water
	3.4. Water Efficient Products
	4. Enhance Indoor Environmental Quality
	4.1. Ventilation and Thermal Comfort
	4.2. Moisture Control
	4.3. Automated Lighting Controls
Not Assessed	4.4. Daylighting and Occupant Controls
	4.5. Low-Emitting Materials
	4.6. Integrated Pest Management
	4.7. Tobacco Smoke Control
	5. Reduce Environmental Impact of Materials
	5.1. Recycled Content
	5.2. Biobased Content
	5.3. Environmentally Preferable Products
	5.4. Waste and Materials Management
	5.5. Ozone Depleting Compounds

#### **1. Employ Integrated Assessment, Operation, and Management Principles**

~	Guiding Principle	Action	Supporting Documentation	Responsible Team Member
	1.1 Team Use an integrated team to develop and implement policy regarding sustainable operations and maintenance.	<ul> <li>Yes</li> <li>No</li> <li>In Process</li> <li>Not Assessed</li> <li>Not Applicable (N/A)</li> <li>Justification (if Not Appli</li> </ul>	Team charter, roster or equivalent Completed "Responsible Team Member" fields Other:	
	Notes/Comments:	Justification (if Not Appli	cadie):	
	<b>1.2 Goals</b> Establish operational performance goals for energy, water, material use and recycling, and indoor environmental quality, and ensure incorporation of these goals throughout the remaining lifecycle of the building. Incorporate sustainable operations and maintenance practices within the appropriate Environmental Management System (EMS).	O Yes O No O In Process O Not Assessed O Not Applicable (N/A)	EMS Manual that incorporates operational performance goals and sustainable operations and maintenance practices Other:	
	Notes/Comments:	Justification (if Not Appli	cable):	
	<b>1.3 Plan</b> Incorporate a building management plan to ensure that operating decisions and tenant education are carried out with regard to integrated, sustainable building operations and maintenance.	O Yes O No O In Process O Not Assessed O Not Applicable (N/A)	Training schedules Seminar Agendas/Flyers Newsletters	
	Notes/Comments:	Justification (if Not Appli	cable):	
	<b>1.4 Occupant Feedback</b> Augment building operations and maintenance as needed using occupant feedback on work space satisfaction.	O In Process O Not Assessed O Not Applicable (N/A)	Post occupancy survey results Other:	
	Notes/Comments:	Justification (if Not Appli	cable):	

~	Guiding Principle	Action	Supporting Documentation	Responsible Team Member
	Assess existing condition and operational procedures of the building and major building systems and identify areas for improvement. Employ recommissioning, tailored to the size and complexity of the building and its system components, in order to optimize and verify performance of fundamental building systems. Commissioning must be performed by an experienced commissioning provider. When building commissioning has been performed the commissioning.	O Yes O No O In Process O Not Assessed O Not Applicable (N/A)	Commissioning report with summary of actions taken and recommissioning schedule	
	Notes/Comments:	Justification (if Not Applie	cable):	

### 2. Optimize Energy Performance

~		Guiding F	Principle			Action	Supporting Documentation	Responsible Team Member
	2.1. Energy Efficiency							
	Use one or more of the following the	hree options to r	neasure energy	efficiency	performance.			
	Option #1 - Option 1 Receive an ENERGY STAR® sco	re of 75 or highe	er.			O Yes O No	Current ENERGY STAR Score demonstrates compliance if it is 75 or higher.	
		Baseline	Current		Change	O In Process	ENERGY STAR Certification	
	Year Ending	N/A	N/A	N/A		O Not Assessed	demonstrates compliance	
	ENERGY STAR Score	N/A	N/A N/A	N/A		O Not Applicable (N/A)		
	Source Energy Use (kBtu)	N/A	N/A	N/A			Other:	
	Source EUI (kBtu/ft²)	N/A	N/A	N/A				
	Site Energy Use (kBtu)	N/A	N/A	N/A				
	Site EUI (kBtu/ft <sup>2</sup> )	<u>N/A</u>	N/A	N/A				
	ENERGY STAR Certification - La	ast Approval Da	ate: Not Applica	ble				
	Notes/Comments:					Justification (if Not Appli	cable):	
	Option #2 - Option 2 Reduce measured building energy thereafter with quality energy use		mpared to buildir Current	ng energy	use in 2003 or a year Change	O Yes O No O In Process O Not Assessed	The <b>Change</b> column for <b>Site Energy</b> <b>Use</b> or <b>Site Energy Use - Adjusted to</b> <b>Current Year</b> demonstrates compliance if it is a reduction of 20% or greater.	
	Year Ending	N/A	N/A	N/A	enange	O Not Applicable (N/A)	Metered energy consumption reduction calculation	
	Site Energy Use (kBtu)	N/A N/A	N/A N/A	N/A				
	Site EUI (kBtu/ft²)	N/A	N/A	N/A			Other:

Notes/Comments:		Justification (if Not Applic	able):	

#### **5. Reduce Environmental Impact of Materials**

~	Guiding Principle	Action	Supporting Documentation	Responsible Team Member
	half of the pre-consumer content constitutes at least 10% (based on cost or weight) of the total value of the materials in the project. If EPA-designated products meet performance requirements and are available at a reasonable cost, a preference for purchasing them shall be included in all solicitation relevant to construction, operation, maintenance of or use in the building. EPA's recycled content products designations and recycled content recommendations are available on EPA's Comprehensive Procurement Guideline web site at <u>www.epa.gov/cpg</u> .	O Yes O No O In Process O Not Assessed O Not Applicable (N/A)	<ul> <li>Purchasing policy</li> <li>Construction specifications</li> <li>Affirmative procurement reports</li> <li>Other:</li></ul>	
	Notes/Comments:	Justification (if Not Applic	able):	
	<b>5.2 Biobased Content</b> Per section 9002 of FSRIA, for USDA-designated products, use products with the highest content level per USDA's biobased content recommendations. For other products, use biobased products made from rapidly renewable resources and certified sustainable wood products. If these designated products meet performance requirements and are available at a reasonable cost, a preference for purchasing them should be included in all solicitations relevant to construction, operation, maintenance of or use in building. USDA's biobased product designations and biobased content recommendations are available on USDA's BioPreferred web site at <u>www.biopreferred.gov</u>	O Not Assessed O Not Applicable (N/A)	<ul> <li>Purchasing policy</li> <li>Construction specifications</li> <li>Affirmative procurement reports</li> <li>Other:</li> </ul>	
	Notes/Comments:	Justification (if Not Applic	able):	
	<b>5.3 Environmentally Preferable Products</b> Use products that have a lesser or reduced effect on human health and the environment over their lifecycle when compared with competing products or services that serve the same purpose. A number of standards and ecolabels are available in the marketplace to assist specifiers in making environmentally preferable decisions. For recommendations, consult the Federal Green Construction Guide for Specifiers at <u>www.wbdg.org/design/greenspec.php</u>	O Yes O No O In Process O Not Assessed O Not Applicable (N/A)	Purchasing policy Construction specifications Affirmative procurement reports Other:	
	Notes/Comments:	Justification (if Not Applic	able):	
	<b>5.4 Waste</b> Provide reuse and recycling services for building occupants, where markets or on-site recycling exist. Provide salvage, reuse and recycling services for waste generated from building operations, maintenance, repair and minor renovations, and discarded furnishings, equipment and property. This could include such things as beverage containers and paper from building occupants, batteries, toner cartridges, outdated computers from an equipment update, and construction materials from a minor renovation.	O No O In Process O Not Assessed	<ul> <li>Program and education plan for paper, cardboard, plastic, glass, metal</li> <li>Salvage/recycling agreements</li> <li>Contract specifications</li> <li>Other:</li> </ul>	

~	Guiding Principle	Action	Supporting Documentation	Responsible Team Member
	Notes/Comments:	Justification (if Not Applic	cable):	
	<b>5.5 Ozone</b> Eliminate the use of ozone depleting compounds where alternative environmentally preferable products are available, consistent with either the Montreal Protocol and Title VI of the Clean Air Act Amendments of 1990, or equivalent overall air quality benefits that take into account lifecycle impacts.	O Yes O No O In Process O Not Assessed O Not Applicable (N/A)	Purchasing policy Construction specifications Affirmative procurement reports Other:	
	Notes/Comments:	Justification (if Not Applic	cable):
