

**Preliminary Agenda
High Temperature Membrane Working Group Meeting
Wednesday, October 10, 2007
Monroe West, Hilton Hotel**

5 pm	Welcome	Nancy Garland
5:05 pm	Discussion overview	James Fenton, UCF
5:15 pm	Synchrotron polymer characterization techniques	Jin Wang, ANL
5:40 pm	“CARISMA” Project: Membrane development for medium and high temperature PEMFC in Europe	Deborah Jones, CNRS
6:05 pm	“CARISMA” Project: Strategy for aging tests of FC membranes	Lorenz Gubler, PSI
6:30 pm	Group discussion - Strategy of modifying structure to control morphology	James Fenton, UCF
6:50 pm	Requirements for samples	James Fenton, UCF
7:00 pm	Adjourn
