

POLICY FLASH 2012-70

DATE: September 26, 2012

TO: Procurement Directors/Contracting Officers

FROM: Director
Contract and Financial Assistance Policy Division
Office of Policy
Office of Acquisition and Project Management

SUBJECT: **Department of Energy Federal Acquisition Regulation Clause Usage Guide**

SUMMARY: Attached for your information is a corrected Department of Energy Federal Acquisition Regulation Clause Usage Guide. This corrected clause matrix is also being posted to the Stripes library. The earlier edition incorrectly designated 52.223-4 Recovered Material Certification and 52.223-9 Estimate of Percentage of Recovered Material Content for EPA-Designated Items, as Not Applicable under management and operating contracts and other facility management contracts. They are actually required clauses as 52.223-17 requires the use of such products in service and construction contracts. They are also being designated as required under the service and construction contract columns.

This Flash will be available online at the following website:
