

## U.S. Department of Energy Categorical Exclusion Determination Form

Program	of Field Office	e: Sandia	Site Office

Project Title: Nanoporous Polymer Thin-Films from Tri-Block Copolymers

Location: Sandia National Laboratories - California

<u>Pro</u>	<u>posed</u>	Action	or	Pro <sup>°</sup>	ect	Descri	ptıon:

American Recovery and Reinvestment Act:

Sandia National Laboratories/California (SNL/CA) proposes to design and make block copolymers that will self-assemble into thermodynamically favorable, ordered nano-domains suitable for chemical modification in order to control transport properties. Design, development, and fabrication of the copolymers would be conducted at existing laboratories at SNL/CA, as would initial characterization. Additional characterization would be performed at New Mexico State University, Brookhaven National Laboratory, and Los Alamos National Laboratory.

Facility Operations	Site Characterization, Monitoring and General Research			
□ B1.1 - Rate increases < inflation (not power marketing)	□ B3.1 - Site characterization/environmental monitoring         □ B3.2 - Aviation activities for survey/monitoring/security         □ B3.3 - Research related to conservation of fish and wildlife         □ B3.4 - Transport packaging tests for radioactive/hazardous material         □ B3.5 - Tank car tests         ☑ B3.6 - Siting/construction/operation/decomm of facilities for R&D, conventional laboratory operations and pilot projects         □ B3.7 - New infill exploratory, experimental oil/gas/geothermal construction/operation         □ B3.8 - Outdoor ecological/environmental research in small area         □ B3.9 - Certain CCT demonstration activities, emissions unchanged         □ B3.10 - Siting/construction/operation/decommissioning of particle accelerators         □ B3.11 - Outdoor tests, experiments on materials and equipment components, no source, special nuclear, or by-product materials         □ B3.12 - Siting/construction/operation/decommission of microbiological or biomedical facilities         □ B3.13 - Magnetic fusion experiments, no tritium fuel use			
☐ B1.17 - Removal of PCB items from aboveground structures ☐ B1.18 - Water supply well const/oper, from existing field, no degradation	Conservation, Fossil, and Renewable Energy Activities  B5.1 - Actions to conserve energy, no indoor air quality degradation			
□ B1.19 - Siting/construction/operation of microwave/radio communication towers □ B1.20 - Protect/restore/improve fish and wildlife habitat □ B1.21 - Noise abatement □ B1.22 - Building relocation to developed area/demolition/disposal □ B1.23 - Demolition/disposal of buildings, equipment, and structures □ B1.24 - Transfer, disposition, or acquisition of uncontaminated structures or equipment, environmental quality maintained □ B1.25 - Transfer, disposition, or acquisition of uncontaminated land for habitat preservation/wildlife management	B5.2 - Modification to oil/gas/geothermal pumps and piping, no flow changes, or air emission effects  □ B5.3 - Modification (not expansion)/abandonment of oil storage access/ brine injection/gas/geothermal wells; no site closure  □ B5.4 - Repair/replacement of pipeline sections within maintenance provisions of a Section 404 permit  □ B5.5 - Short crude oil/gas/steam/geothermal pipeline const/oper within a single industrial complex/existing right-of-way  □ B5.6 - Oil spill cleanup operations			
☐ B1.26 - Siting/construction/operation/decommissioning of small water treatment facilities	Environmental Restoration/Waste Management Activities			
<ul> <li>□ B1.27 - Disconnection of utilities</li> <li>□ B1.28 - Placement of unused facilities in environmentally safe condition</li> <li>□ B1.29 - Small on-site const/demolition waste disposal facility const/oper/decom</li> <li>□ B1.30 - Transfer/transportation actions, quantities incidental to amounts at receiving site</li> <li>□ B1.31 - Relocation/operation of machinery or equipment, similar use</li> <li>□ B1.32 - Traffic flow adjustments, existing roads.</li> </ul>	<ul> <li>☐ B6.1 - Cleanup actions: small-scale, short-term</li> <li>☐ B6.2 - Siting/construction/operation of temporary pilot-scale waste collection/treatment/stabilization/containment facilities</li> <li>☐ B6.3 - Environmental control system improvements in existing structures, recycle/release/disposal within permitted facility</li> <li>☐ B6.4 - Packaged hazardous waste storage facility const/oper/decom</li> <li>☐ B6.5 - Const/oper/decom of on-site facility for characterizing/sorting or over packing previously packaged waste (not high-level or spent nuclear fuel; no unpacking)</li> </ul>			
Safety and Health	☐ B6.6 - Modification of facility for storing, packaging, or repacking waste			
<ul> <li>B2.1 - Modifications to enhance workplace habitability</li> <li>B2.2 - Installation/improvement of building/equipment instrumentation</li> <li>B2.3 - Installation of equipment for personnel safety and health</li> <li>B2.4 - Equipment Qualifications Program</li> <li>B2.5 - Facility safety and environmental improvements, replacement or of facility components</li> <li>B2.6 - Packaging/transportation/storage of radioactive sources from public domain upon request</li> </ul>	(not high-level or spent nuclear fuel)  B6.7 - Granting/denying petitions for allocation of commercial disposal capacity B6.8 - Minor operational changes to minimize waste or reuse materials B6.9 - Small-scale, temporary measures to reduce contaminated GW migration B6.10 - Siting/construction/operation/decommissioning of small upgraded or replacement waste storage facilities  Other Specify category:			
nom paone domain apon request	Depotity category.			

This action would not (1) violate applicable ES&H requirements, (2) require siting of waste Treatment, Storage, Disposal or Recovery facilities, (3) disturb hazardous substances (excluding naturally occurring petroleum and natural gas), thus producing uncontrolled or unpermitted releases, and (4) adversely affect environmentally sensitive resources. Furthermore, this action (1) would not present any extraordinary circumstances such that the action might have a significant impact upon the human environment, (2) is not connected to other actions with potentially significant impacts, and (3) is not related to other actions with cumulatively significant impacts. Therefore, the proposed action may be categorically excluded from further review.

Date Determined: 10/04/2010

NEPA Compliance Officer or Program Officer: LACY, SUSAN DOYLENE
