NEPA REVIEW SCREENING FORM	DOE/CX-00050 Rev. 1
<pre>I. Project Title: Washington River Protection Solutions LLC - Proposed Actions For CY 20 Place Under CX B1.27, "Disconnection of Utilities"</pre>	13 Scheduled To Take
II. Project Description and Location (including Time Period over which proposed action will occur acres displaced/disturbed, excavation length/depth, area/location/number of buildings, etc.):  Washington River Protection Solutions LLC (WRPS) will disconnect utili longer required for safety during Calendar Year 2013. WRPS will perfor accordance with the categorical exclusion (CX) limitations set forth i Appendices A & B to Subpart D, & CX B1.27. WRPS' facilities include al the Tank Operations Contract Sections J.13 and J.14. Activities would limited to:  Disconnect utility services such as water, communications, heating, protection, and power that are no longer needed and continuation of seconds.	ties services no m all activities in n 10 CFR 1021, l those identified in include, but are not
for safety.  As part of the utility disconnect, utility systems will be isolated and/or de-energized, and utilities, piping, network/communications systems disconnected.  If needed, will engage in small-scale, localized repairs to building needed to seal cracks, cover or seal grates and openings to the facilities from removing utility system equipment and system components for safety.	as needed, drained tems will be structures as ty exterior that
· Actions required to implement the disconnection of utilities will al as moving of equipment and materials.	
All locations are currently disturbed, industrial zones which are cult PNL-7264 & Battelle 9405630) &/or covered under NHPA Section 106 revies 2003-200-044. The majority of the WRPS facilities are classified as his contributing/exempt properties under DOE/RL-97-56, Revision 1. To ensure ecological/biological or cultural impacts, prior to work initiation, 1 facilities or work will have the appropriate cultural reviews obtained ecological reviews will be obtained if needed, 3) all work activities staging &/or laydown areas) will be performed within or contiguous to area (where active site utilities & roads are readily accessible & no will be disturbed), 4) all equipment will be walked down for wildlife/to any relocation or move, & 5) if any cultural or ecological issues a identified issue(s) will be appropriately dealt with as required by relations Site procedures & regulations.	ew, HCRC# storical non- are there will be no any non-exempt as needed, 2) (including associated an already developed habitat/vegetation (migratory birds prior are identified, the

NEPA REVIEW SCREENING FORM (continued)  V. Categorical Exclusion  Does the proposed action fall within a class of actions that is listed in Appendixes A or B to Subpart D of 10 CFR Part 1021?  Are there extraordinary circumstances related to the proposal that may affect the significance of the environmental effects of the proposal?  Is the proposal connected to other actions with potentially significant impacts or result in cumulatively significant impacts (not precluded by 40 CFR 1506.1 or 10 CFR 1021.211)?  List CX to be applied and complete Categorical Exclusion Integral Elements (where an action might fit within multiple CXs, use the CX that best fits the proposed action):  B1.27, "Disconnection of Utilities"  Categorical Exclusion Integral Elements  Does the proposed action threaten a violation of applicable statutory, regulatory, or permit requirements for environmental, safety, or health, including DOE and/or Executive Orders?  Does the proposed action require siting, construction, or major expansion of waste storage, disposal, recovery, or treatment facilities?  Does the proposed action disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that pre-exist in the environment such that there would be uncontrolled or unpermitted releases?  Does the proposed action adversely affect environmentally sensitive resources?
