Dear Mr. Lawrence:

I wish to intervene in the Northern Pass application.

The lines would wreak untold aesthetic damage to New Hampshire, which relies on its natural beauty for its tourist industry. It would devalue thousands of acres residents own or rent for the purpose of enjoying the beauty of the state. In balance, this factor outweighs all purported benefits of the project, and for that reason this project is not in the best interests of the residents of or visitors to New Hampshire.

Regards,

Eli Gray
