The contractor met some of performance goals and objectives for this period. The plants were shutdown at both sites for prolonged periods due to significant safety issues. Significant effort was expended by the contractor to correct deficiencies in key work control and hazard analysis procedures to satisfy integrated safety management system implementation contract requirements. Special attention was given by the contractor to enhance the safety conscious work environment as TRC and DART rates goals for FY15 were not met. The contractor continued safe handling of hydrofluoric acid and prompt performance of cylinder transfers to support DOE initiatives.

Performance Based Incentives Award Fee

Contractor: B&W Conversion Services, LLC

Contract: DE-AC30-11CC40015

Award Period: October 1, 2014 – September 30, 2015

Basis of Evaluation:

The Performance Based Incentive Award fee is a straight fee based on the amount of metric tons (MT) of DUF₆ processed in the period multiplied by the material processed fee rate for the period, which happens to be \$67/Metric Ton. BWCS processed 10,608 MT of DUF₆. The fee associated with this is \$710,736. As the result of an excusable delay, BWCS was credited with an additional 498 MT of DUF₆ which is an additional fee of \$33,366.

The Total Performance Based Incentive Fee Earned: \$744,102 of \$3,459,163
