

Weatherization Program Notice 03-2

Effective Date - February 27, 2003

SUBJECT: REVISED PROGRAM YEAR 2003 TENTATIVE ALLOCATIONS

PURPOSE: To provide tentative allocations to the States for their preparation and submission of applications for funding of the Low-Income Weatherization Assistance Program (Weatherization) for Program Year 2003.

SCOPE: The provisions of this guidance apply to all grantees applying for financial assistance under the Department of Energy Weatherization Assistance Program (DOE).

BACKGROUND: Title IV, Energy Conservation and Production Act as amended authorizes the Department of Energy to administer the Low-Income Weatherization Assistance Program. All grant awards made under this program shall comply with applicable law including, regulations contained in 10 CFR Part 440, and other procedures applicable to this regulation as DOE may from time to time prescribe for the administration of financial assistance.

PROCEDURES: The final tentative allocations included in this guidance are to be used in conjunction with Weatherization Program Notice 03-1, 2003 Grant Guidance, in developing the annual grant application for Program Year 2003. These allocations reflect the FY 2003 funding level for Weatherization of \$223,538,000 million in the Interior Appropriations Bill passed by the Congress and signed by the President. This represents a \$6,462,000 million reduction from the FY 2002 appropriation level for Weatherization. States should begin developing/amending their 2003 State Plans based on these allocations.

Seattle (adjusted)	\$17,561,582	\$1,806,765	\$19,368,348

* These numbers differ slightly from the WPN issued due to recalculating the Navajo Nation allocation.

Note: Allocations are prorated from 1995 levels under Public Law 103-332 since appropriations result in total state program allocations below threshold as indicated in 10 CFR 440 (Federal Register, Vol. 60, No. 107, pgs 29469-29481, 6-5-95). Therefore, census and EIA data updated since 1995 do not impact allocations.
