Filing of Contract Amendment Under Seal for LNG Americas, Inc. (f/k/a SK  
E&S LNG, LLC)

Dear Ms. Sweeney:

On November 30, 2023, LNG Americas, Inc. (f/k/a SK E&S LNG, LLC) (“Seller”) and Prism Energy International PTE. LTD. (“Prism”) entered into an amendment (the “Third Amendment”) to the long-term LNG Sale and Purchase Agreement for the sale of liquefied natural gas from the Freeport LNG terminal near Freeport, Texas (the “SPA”) that was executed by the parties on November 8, 2019, and previously filed with the DOE/FE under seal on November 19, 2019 (the “Major Provisions Summary Letter”). The first amendment to the SPA was executed by the parties on July 16, 2020, and was filed with the DOE/FE under seal on July 31, 2020 and the second amendment to the SPA was executed by the parties on May 9, 2023, and was filed with the DOE/FE under seal on May 31, 2023.

As it relates to changes to any of the provisions set forth in Exhibit A to the Major Provisions Summary Letter, the Third Amendment allows Prism to, for the 2025 contract year and each contract year thereafter, adjust upward the annual contract quantity by an amount between two million six hundred thousand (2,600,000) MMBtu and three million nine hundred thousand (3,900,000) MMBtu of LNG; provided, if the parties thereto can’t agree on the upward increase amount, the upward increase amount shall equal three million two hundred thousand (3,200,000) MMBtu of LNG.

Except as noted above, the Third Amendment does not alter any of the material terms of the SPA as reflected in the previously submitted public summary.

Seller is separately submitting, via overnight courier, a non-redacted copy of the Third Amendment under seal in a marked envelope. The Third Amendment, like the SPA itself, is highly confidential (as is this letter) and they contain commercially sensitive and proprietary information, the disclosure of which would cause competitive and financial harm to Seller and Prism. Accordingly, Seller respectfully requests that the Third Amendment be treated and maintained as confidential to the greatest extent permitted by law, including under exemptions from disclosure provided by the Freedom of Information Act, 5 U.S.C. § 552(b)(4), and under DOE regulations, including 10 C.F.R. §§ 590.202(e) and 1004.11.

Please do not hesitate to contact the undersigned if you have any questions regarding this filing.

Very truly yours,

/s/ Gabriel Procaccini
