Company	Quantity <sup>(a)</sup>	FTA Applications <sup>(b)</sup> (Docket Number)	Non-FTA Applications <sup>(c)</sup> (Docket Number)
<b>Total of all Applications Received</b>		<b>70.27 Bcf/d (**)(***)</b>	<b>64.60 Bcf/d (**)(***)</b>

\* These applications are not ready for DOE review until their relevant environmental review under National Environmental Policy Act (NEPA) is completed.

\*\* In Docket Nos. 11-59-LNG and 13-04-LNG, Lake Charles Exports, LLC (LCE) and Lake Charles LNG Export Company, LLC (LCLNG), the owner of the Lake Charles Terminal, have both filed an application to export up to 2.0 Bcf/d of LNG from the Lake Charles Terminal; the total quantity of combined exports requested between LCE and LCLNG does not exceed 2.0 Bcf/d (i.e., both requests are not additive and only 2 Bcf/d is included in the bottom-line total of applications received). In Docket Nos. 16-109-LNG and 16-110-LNG, LCE and LCLNG have both filed an application to export up to 0.33 Bcf/d from the Lake Charles Terminal; this total quantity of combined exports requested between LCE and LCLNG does not exceed 0.33 Bcf/d (i.e., both requests are not additive and only 0.33 Bcf/d is included in the bottom-line total of applications received)

\*\*\* On July 9, 2014, the volume for Golden Pass Products LLC was changed to 2.0 Bcf/d to reflect the average daily amount, instead of the 2.6 Bcf/d peak daily amount included in the application. On April 25, 2017, DOE/FE approved the non-FTA authorization for Golden Pass Products LLC for 2.2 Bcf/d, which the facility is limited to (the FTA and non-FTA volumes are not additive). On August 14, 2020, Golden Pass LNG Terminal LLC applied for a facility design increase of 0.57 Bcf/d to their approved short-term authorization, 12-88-LNG; it also applied for a facility design increase of 0.37 Bcf/d to their approved long-term authorization, 12-156-LNG. Also the FTA volume for SCT&E LNG, LLC was changed to 1.6 Bcf/d to reflect a new application and withdrawal of the previous application to export 0.6 Bcf/d.

- (a)** Actual applications were in the equivalent annual quantities.
- (b)** FTA – Applications to export to free trade agreement (FTA) countries. The Natural Gas Act, as amended, has deemed FTA exports to be in the public interest and applications shall be authorized without modification or delay.
- (c)** Non-FTA applications require DOE to post a notice of application in the Federal Register for comments, protests and motions to intervene, and to evaluate the application to make a public interest consistency determination. (F) is a Final Authorization and (C) is a Conditional Authorization.
- (d)** Requested approval of this quantity in both the FTA and non-FTA export applications. Total facility is limited to this quantity (i.e., FTA and non-FTA volumes are not additive at a facility).

**Long Term Applications Received by DOE to Export  
Domestically Produced LNG, CNG, CGL from the Lower-48 States (as of April 17, 2024)**

*All Changes Since Last Issuance on December 11, 2023 Are in Red*

- (e)** Carib Energy (USA) LLC requested authority to export the equivalent of 11.53 Bcf per year of natural gas to FTA countries and 3.44 Bcf per year to non-FTA countries. Carib's requested amendment to its application on 12/12/2012, included a revised volume equivalent to 0.06 Bcf/d from 0.01 Bcf/d of natural gas.
- (f)** Jordan Cove Energy Project, L.P. requested authority to export the equivalent of 1.2 Bcf/d of natural gas to FTA countries and 0.8 Bcf/d to non-FTA countries.
- (g)** DOE/FE received a new application (11-161-LNG) by FLEX to export an additional 1.4 Bcf/d of LNG from new trains to be located at the Freeport LNG Terminal, to non-FTA countries, and a separate application (12-06-LNG) to export this same 1.4 Bcf/d of LNG to FTA countries (received January 12, 2012). This 1.4 Bcf/d is in addition to the 1.4 Bcf/d FLEX requested in dockets (10-160-LNG and 10-161-LNG).
- (h)** An application was submitted by Gulf Coast on January 10, 2012, seeking one authorization to export LNG to any country not prohibited by U.S. law or policy. On September 11, 2012, Gulf Coast revised their application by seeking separate authorizations for LNG exports to FTA countries and Non-FTA countries.
- (i)** On December 31, 2018, Magnolia applied to increase its approved export amount across Docket Nos. 12-183-LNG, 13-131-LNG, and 13-132-LNG from 1.08 Bcf/d to 1.23 Bcf/d. FTA and Non-FTA volumes are not additive.
- (j)** FLEX applied for a second authorization to export 1.4 Bcf/d to FTA and Non-FTA countries. DOE/FE authorized 1.4 Bcf/d to FTA countries before FLEX filed with FERC. DOE authorized 0.4 Bcf/d to Non-FTA countries, which authorizes a total volume of 1.8 Bcf/d to Non-FTA countries in the two FLEX Non-FTA orders. The FLEX application with FERC is for a total facility capacity of 1.8 Bcf/d.
