NATIONAL NUCLEAR SECURITY ADMINISTRATION

SUBJECT: Initiatives to Achieve Strategic Plan 2014-2018 Performance Goal
Focused on Cost Savings

The Department of Energy (DOE) Strategic Plan 2014-2018 includes a performance goal designed to expand the use of strategic sourcing across the Department for both federal procurements and contractor Management & Operating (M&O) procurements. This is consistent with ongoing Office of Management and Budget (OMB)/Office of Federal Procurement Policy (OFPP) initiatives and demonstrates the Department's commitment to cutting costs and executing work in the most efficient manner.

We look to achieve this performance Goal in FY 2015 and continue to improve in the years to follow. To do so, the DOE/NNSA Offices of Acquisition and Project Management will work together to emphasize and enhance the Department's strategic sourcing program. More importantly, your cooperation is appreciated to maintain our momentum in completing the attached initiatives.

If you have any questions, please feel free to contact Scott Clemons at (202) 287-1554 or scott.clemons@hq.doe.gov.
