

**BEFORE THE  
U.S. DEPARTMENT OF ENERGY  
Washington, D.C. 20585**

In the Matter of: )

**Pax Global, Inc.,** )  
(freezers) )

Case Number: 2013-SE-1413

Issued: April 2, 2013

**NOTICE OF NONCOMPLIANCE DETERMINATION**

Manufacturers and private labelers are prohibited from distributing covered products in the United States that do not comply with applicable federal energy conservation standards. 10 C.F.R. § 429.102; 42 U.S.C. § 6302. Pax Global, Inc. ("Pax Global") is a private labeler and uses the "Crosley" and "Daewoo" brands to distribute freezers in the United States.

**TESTING**

1. The U.S. Department of Energy ("DOE") tested four privately labeled units of [REDACTED] basic model number [REDACTED], manufactured [REDACTED],<sup>1</sup> that had been distributed in the United States by a third-party private labeler. [REDACTED] basic model number [REDACTED] is privately labeled and distributed in the United States by Pax Global as Crosley model CCF51 ("the Crosley CCF51").<sup>2</sup>

DOE's testing in accordance with DOE test procedures (10 C.F.R. Part 430, Subpart B, Appendix B1) demonstrated that [REDACTED] basic model [REDACTED] is not in compliance with federal law. Given the tested units' measured volumes, the maximum permissible rate of energy consumption was [REDACTED] kilowatt-hours per year (kWh/yr).<sup>3</sup> Based on their performance during testing, the four units that DOE tested consumed energy at the respective rates of [REDACTED] kWh/yr. Furthermore, in a Compromise Agreement executed April 2, 2013, Pax Global admitted that the Crosley CCF51 does not comply with the applicable federal energy conservation standard.

2. DOE tested four privately labeled units of [REDACTED] basic model number [REDACTED], manufactured in [REDACTED], that had been distributed in the United States by a third-party private labeler. [REDACTED] basic [REDACTED] D is privately labeled and

<sup>1</sup> [REDACTED] for the purposes of this Notice means [REDACTED] or one or more of those [REDACTED] companies, all of which are subsidiaries or affiliates of [REDACTED]

<sup>2</sup> [REDACTED] informed DOE through compelled sales records that it sold model [REDACTED] to Pax Global to be privately labeled and distributed in the United States as the Crosley CCF51.

<sup>3</sup> Under 10 C.F.R. § 430.32(a), the maximum energy use, in kWh/yr, of a compact chest freezer may not exceed 152 plus the product of 10.45 and the total adjusted volume of the particular freezer (10.45AV+152.0).

distributed in the United States by Pax Global as Crosley model CCF69 (“the Crosley CCF69”).<sup>4</sup>

DOE’s testing in accordance with DOE test procedures (10 C.F.R. Part 430, Subpart B, Appendix B1) demonstrated that [REDACTED] basic model [REDACTED] is not in compliance with federal law. Given the tested units’ measured volumes, the maximum permissible rate of energy consumption was [REDACTED] kilowatt-hours per year (kWh/yr). Based on their performance during testing, the four units that DOE tested consumed energy at the respective rates of [REDACTED] kWh/yr. Furthermore, in a Compromise Agreement executed April 2, 2013, Pax Global admitted that the Crosley CCF69 does not comply with the applicable federal energy conservation standard.

3. In accordance with DOE test procedures (10 C.F.R. Part 430, Subpart B, Appendix B1), DOE tested four units of [REDACTED] basic mode [REDACTED], manufactured in [REDACTED], that had been distributed in the United States by a third-party private labeler. [REDACTED] basic model [REDACTED] is privately labeled and distributed in the United States by Pax Global as model CCD106 under the Crosley brand (“the Crosley CCD106”) and as model DCF-106W under the Daewoo brand (“the Daewoo DCF-106W”).<sup>5</sup>

Given the tested units’ measured volumes, the maximum permissible rate of energy consumption was [REDACTED] kilowatt-hours per year (kWh/yr). Based on their performance during testing, the four units that DOE tested consumed energy at the respective rates of [REDACTED] kWh/hr. Accordingly, none of the tested units met the energy conservation standard set forth in 10 C.F.R. § 430.32(a). Furthermore, in a Compromise Agreement executed April 2, 2013, Pax Global admitted that the Crosley CCD106 and the Daewoo DCF-106W do not comply with the applicable federal energy conservation standard.

### FINDINGS

Based on the facts stated above, DOE has determined, after applying the calculations set forth in 10 C.F.R. Part 429, Subpart C, Appendix A, that the following basic models do not comply with the applicable energy conservation standard: (1) the Crosley CCF51; (2) the Crosley CCF69; (3) the Crosley CCF106; and (4) the Daewoo DCF-106W.

---

<sup>4</sup> [REDACTED] informed DOE through compelled sales records that it sold model [REDACTED] to Pax Global to be privately labeled and distributed in the United States as the Crosley CCF51.

<sup>5</sup> [REDACTED] informed DOE through compelled sales records that it sold model [REDACTED] to Pax Global to be privately labeled and distributed in the United States as the Crosley CCD106 and the Daewoo DCF-106W.

## MANDATORY ACTIONS BY PAX GLOBAL

In light of the above finding, Pax Global must take the following steps in accordance with 10 C.F.R. § 429.114(a):

- (1) Immediately cease distribution in commerce in the United States of all units, regardless of label, of the Crosley CCF51, the Crosley CCF69, the Crosley CCD106, and the Daewoo DCF-106W;
- (2) Provide immediate written notification of this noncompliance determination to all persons in the United States to whom Pax Global has distributed units, regardless of label, of the Crosley CCF51, the Crosley CCF69, the Crosley CCD106, and the Daewoo DCF-106W in the past three years; and
- (3) Provide to DOE within 15 calendar days of the date of this Notice a copy of the written notification required by paragraph (2) and a list of the parties that Pax Global notified.

The response required by paragraph (3) must be dated, signed, and notarized, and must include a declaration under penalty of perjury that the contents of the responses are true. Specifically, the person signing the response must attest the following: "I declare under penalty of perjury that the statements contained in this response are true, correct, and complete."

If you claim that any of the information sought by this Notice constitutes confidential commercial material within the meaning of 5 U.S.C. § 552(b)(4), or is protected from disclosure pursuant to 18 U.S.C. § 1905, you must (1) provide one complete and full copy and one copy with the confidential information deleted and (2) submit supporting information together with the materials that are the subject of the confidentiality request. *See* 10 C.F.R. § 429.7. Failure to adhere to these procedures will result in a rejection of your request for confidential treatment.

## OPTIONAL ACTIONS BY PAX GLOBAL

In addition to the mandatory steps listed above that Pax Global must complete, Pax Global may elect to modify the Crosley CCF51, the Crosley CCF69, the Crosley CCD106, and the Daewoo DCF-106W to bring any or all into compliance with the applicable standard. Any modified basic model shall be treated as a new basic model under the regulations and must be certified in accordance with the provisions of 10 C.F.R. Part 429. Prior to distribution in commerce in the United States, Pax Global must provide to DOE test data demonstrating that the modified basic model complies with the applicable standard. All units must be tested in accordance with DOE regulations, and Pax Global shall bear the costs of all such testing that is conducted.

If, after this testing, DOE determines that the modified basic model complies with the applicable standard, DOE shall issue a Notice of Allowance to permit Pax Global to resume the distribution of the modified basic model in the United States. Until DOE determines that the modified basic model complies with the applicable standard, no units of the basic model may be sold or otherwise distributed by Pax Global in the United States.

CONSEQUENCES FOR FAILURE TO COMPLY WITH THIS NOTICE

Should Pax Global fail to cease immediately the distribution in the United States of all units, regardless of label, of the Crosley CCF51, the Crosley CCF69, the Crosley CCD106, and the Daewoo DCF-106W basic models, this letter serves as notice that DOE will seek a judicial order within 30 calendar days to restrain further distribution. If, however, Pax Global provides DOE with a satisfactory statement within that 30-day period detailing the steps that Pax Global will take to ensure that units of the noncompliant basic models will no longer be distributed in commerce in the United States, DOE may elect to defer seeking such an order until a more appropriate time, if needed.

The distribution of any units of a noncompliant basic model may result in DOE seeking all appropriate legal remedies available under federal law, including injunctive relief and civil penalties with respect to each unit of the basic model distributed in violation of federal law.
