

MEMORANDUM

RE: Ex Parte Communications in Connection with
Docket No. EERE-2010-BT-STD-0027
Energy Conservation Standards for Commercial and Industrial Electric Motors: Public
Meeting and Availability of the Preliminary Technical Support Document
77 Fed. Reg. 43015 (July 23, 2012)

To: expartecommunications@hq.doe.gov

From: Alex Boesenberg, Manager of Regulatory Affairs
National Electrical Manufacturers Association

Date: July 15, 2013

Encl: Motor Training Presentation

This memorandum memorializes a communication between DOE staff and members of the NEMA Motor and Generator Section in connection with this proceeding. NEMA thanks the DOE for the opportunity to conduct training for DOE staff and its consultants on July 15th, 2013 which illustrated the different types of motors, motor construction theory and motor applications by type. It is our hope that better understanding of motor types and construction will assist the Department and its consultants with the discharge of their duties.

Attendees of the July 15th meeting were as follows: Ashley Armstrong (DOE), Ami Grace-Tardy (DOE), Laura Barhydt (DOE), Michael Kido (DOE), Pamela Costello (Navigant), Lucas Adin (DOE), Brian Coffey (Navigant), Paul Lin (Regal Beloit), Gary Fernstrom (CA IOUs), Joanna Mauer (ASAP), Jeff Casey (Brook Crompton), Vijeta Jangra (Navigant), Sanaee Iyama (LBNL), Steve Tabor (Bluffton Motor Works), Bill Finley (Siemens), Dale Basso (Nidec Motors), Dan Delaney (Regal Beloit), John Malinowski (Baldor), Tim Schumann (SEW Eurodrive), Roger Daugherty (Baldor), Rob Boteler (Nidec), Michael Rivest (Navigant), Doug Rawald (DOE), Alex Boesenberg (NEMA), Andrew deLaski (ASAP).

The presentation given during the meeting is enclosed.
