

Manufacturing Demonstration Facilities Workshop

Marriott Springhill Suites O'Hare - Chicago, IL

March 12, 2012

Objectives

- Introduce the manufacturing community to the U.S. DOE Advanced Manufacturing Office (AMO) program vision and its goals.
- Explain the proposed mechanics of the Manufacturing Demonstration Facility (MDF) concept and the objectives of this particular anticipated effort.
- Encourage discussion among potential organizations that have the relevant expertise, facilities and capabilities for executing an MDF that is responsive to the goals.
