Table of Contents

Foreword	i
Executive Summary	vii
1.0 Introduction	1
1.1 Background.....	2
1.2 U.S. Geothermal Potential	8
1.3 Market Potential	11
1.3.1 Geothermal Energy Potential	13
1.3.2 Electrical Energy Potential Future Development	13
1.3.3 Heating Energy Potential	14
1.4 Program Vision and Mission	15
1.5 Key Activities	17
1.6 Scope of Multi-Year RD&D Plan	18
2.0 Program Benefits	21
2.1 Energy Diversity	21
2.1.1 Offset of Coal and Natural Gas.....	21
2.1.2 Offset of Nuclear	23
2.1.3 Offset of Foreign Oil	23
2.1.4 Contribution to Renewable Energy Portfolios	23
2.2 Environmental Benefits	24
2.2.1 Climate Change	24
2.2.2 Water Use & Water Quality	26
2.2.3 Surface Land Use	26
2.2.4 Critical Air Pollutants	27
2.2.5 Possible Use of CO ₂	28
2.3 Economic Benefits	28
2.3.1 Job Creation	28
2.3.2 Capital Savings and State Income Generation	28
2.3.3 Generation Stability.....	29
3.0 Program Challenges	31
3.1 Institutional Barriers	31
3.1.1 Access to Transmission Infrastructure	31
3.1.2 Lack of Available and Reliable Resource Information	31
3.1.3 High Exploration Risks and High Upfront Costs.....	32
3.1.4 Absence of National Policy.....	32
3.1.5 Siting, Leasing, and Permitting Issues	33
3.2 Resource Assessment and Data Needs.....	34
3.3 Education Workforce Development	36
4.0 Technical Plan	37
4.1 Enhanced Geothermal Systems Research, Development, and Demonstration.....	37
4.1.1 Site Selection	39

Table of Contents

4.1.1.1 Site Selection Goals	39
4.1.1.2 Site Selection Barriers	40
4.1.1.3 Site Selection Background	40
4.1.1.4 Site Selection Objectives	41
4.1.1.5 Site Selection Technical Approach	43
4.1.1.6 Site Selection Programmatic Status	44
4.1.1.7 Site Selection Technology Status	45
4.1.1.8 Site Selection Tasks	49
4.1.2 Site/Well Characterization	50
4.1.2.1 Site/Well Characterization Goal	50
4.1.2.2 Site/Well Characterization Barriers	51
4.1.2.3 Site/Well Characterization Background	51
4.1.2.4 Site/Well Characterization Objectives	52
4.1.2.5 Site/Well Characterization Technical Approach	53
4.1.2.6 Site/Well Characterization Programmatic Status	53
4.1.2.7 Site/Well Characterization Technology Status	54
4.1.2.8 Site/Well Characterization Tasks	55
4.1.3 Reservoir Creation	56
4.1.3.1 Reservoir Creation Goal	56
4.1.3.2 Reservoir Creation Barriers	57
4.1.3.3 Reservoir Creation Background	57
4.1.3.4 Reservoir Creation Objectives	58
4.1.3.5 Reservoir Creation Technical Approach	59
4.1.3.6 Reservoir Creation Programmatic Status	59
4.1.3.7 Reservoir Creation Technology Status	60
4.1.3.8 Reservoir Creation Tasks	62
4.1.4 Reservoir Validation	63
4.1.4.1 Reservoir Validation Goal	63
4.1.4.2 Reservoir Validation Barrier	63
4.1.4.3 Reservoir Validation Background	63
4.1.4.4 Reservoir Validation Objectives	63
4.1.4.5 Reservoir Validation Technical Approach	64
4.1.4.6 Reservoir Validation Programmatic Status	64
4.1.4.7 Reservoir Validation Technology Status	64
4.1.4.8 Reservoir Validation Tasks	67
4.1.5 Interwell Connectivity	67
4.1.5.1 Interwell Connectivity Goal	67
4.1.5.2 Interwell Connectivity Barriers	67
4.1.5.3 Interwell Connectivity Background	68
4.1.5.4 Interwell Connectivity Objectives	68
4.1.5.5 Interwell Connectivity Technical Approach	68
4.1.5.6 Interwell Connectivity Programmatic Status	69
4.1.5.7 Interwell Connectivity Technology Status	69
4.1.5.8 Interwell Connectivity Tasks	70
4.1.6 Reservoir Scale Up	71
4.1.6.1 Reservoir Scale Up Goal	71
4.1.6.2 Reservoir Scale Up Barrier	71
4.1.6.3 Reservoir Scale Up Objectives	71
4.1.6.4 Reservoir Scale Up Technical Approach	72
4.1.6.5 Reservoir Scale Up Programmatic Status	72
4.1.6.6 Reservoir Scale Up Technology Status	72
4.1.6.7 Reservoir Scale Up Tasks	73
4.1.7 Reservoir Sustainability	74
4.1.7.1 Reservoir Sustainability Goal	74
4.1.7.2 Reservoir Sustainability Barrier	74
4.1.7.3 Reservoir Sustainability Background	74
4.1.7.4 Reservoir Sustainability Objectives	74

Table of Contents

4.1.7.5 Reservoir Sustainability Technical Approach	75
4.1.7.6 Reservoir Sustainability Programmatic Status	75
4.1.7.7 Reservoir Sustainability Technology Status	76
4.1.7.8 Reservoir Sustainability Tasks	79
4.1.8 Surface Facility (Energy Conversion)	79
4.1.8.1 Energy Conversion Goal	79
4.1.8.2 Energy Conversion Barrier	80
4.1.8.3 Energy Conversion Objectives	80
4.1.8.4 Energy Conversion Technical Approach	81
4.1.8.5 Energy Conversion Programmatic Status	82
4.1.8.6 Energy Conversion Technology Status	82
4.1.8.7 Energy Conversion Tasks	82
4.2 Enhanced Geothermal Systems Validation	83
4.2.1 System Demonstrations	84
4.2.1.1 System Demonstrations Barriers to Commercialization	85
4.2.1.2 System Demonstrations Technical Goals, Objectives, and Targets	85
4.2.1.3 System Demonstrations Technical Approach	86
4.2.1.4 System Demonstrations Programmatic Status	88
4.2.1.5 Systems Demonstrations Technology Status	89
4.2.2 Technology Validation	90
4.2.2.1 Technology Validation Technical Goals and Objectives	90
4.2.2.2 Technology Validation Technical Approach	90
4.2.2.3 Technology Validation Technical Programmatic Status	90
4.2.2.4 Technology Validation Technology Status	91
5.0 Program Analysis	93
5.1 Program Analysis Technical Goal	93
5.2 Program Analysis Barriers to Commercialization	94
5.3 Program Analysis Technical Objectives	95
5.4 Program Analysis Technical Approach	97
5.4.1 Studies and Analysis	98
5.4.2 Unplanned Studies and Analysis	101
5.4.3 Systems Analysis Plan	101
5.5 Program Analysis Programmatic Status	102
5.6 Program Analysis Tasks	103
6.0 Systems Integration	105
6.1 Systems Integration Technical Goal	105
6.2 Systems Integration Barriers to Commercialization	105
6.3 Systems Integration Technical Objectives	106
6.4 Systems Integration Technical Approach	107
6.4.1 Systems Integration Integrated Technical and Programmatic Baseline	107
6.4.2 Systems Integration Analysis	110
6.4.3 Technical Performance Verification	110
6.4.4 Systems Integration and Management	111
6.4.5 Program Support	111
6.5 Systems Integration Programmatic Status	112
6.6 Systems Integration Tasks	114

Table of Contents

7.0 Program Coordination	115
7.1 International Coordination.	115
7.2 Industry and Trade Associations.	117
7.3 Academia	119
7.4 Other Federal Agencies	120
7.5 Intra-Agency – DOE Offices.	120
7.6 DOE National Laboratories	122
8.0 Program Management and Operations	127
8.1 Program Staffing	127
8.2 Program Management	127
8.2.1 Program Planning	128
8.2.2 Program Budget.	128
8.2.3 Program Execution	128
8.2.4 Program Evaluation.	129
8.2.4.1 Retrospective Economic Assessment for the Geothermal Technologies Program	130
8.2.4.2 External Performance Monitoring	131
8.2.4.3 Internal Performance Monitoring.	131
8.2.4.4 Peer Reviews	132
8.2.4.5 Technical Project Reviews	133
8.3 Technology Management	134
8.4 Program Requirements	135
9.0 Appendices	137
9.1 Fiscal Year 2009 Budget.	137
9.2 Risk Analysis.	137
9.3 Funding Opportunity Announcements	137
9.4 Barriers, Goals, Objectives, and Tasks.	137
