Subject: PLAINS & EASTERN CLEAN LINE TRANSMISSION LINE - PART 2 APPLICATION

A project of this scope requires a comment period that allows the general public ample time to analyze Clean Line's application in its entirety and comment fully. Please extend the comment period. All of us, the stakeholders, landowners, and the general public, were not presented with this application, the materials and appendices, and we received no explanation of the process and criteria with which the Department of Energy will review and make a determination on this project in a formal setting, as was done with the Draft EIS. We need public hearings to comment on this application, which is even more important than the EIS. Please schedule public hearings as soon as possible and provide wide notice to the public. Thank you.

Doris Brown
