---

Dear Dr. Moniz,

I am writing you regarding the Non-NEPA Section 1222 review for Clean Line Energy Partners, LLC's proposed Plains & Eastern HVDC line.

1) The comment period does not give us adequate time to review Clean Line's application in its entirety, and I am

requesting an extension to the comment period. A project of this scope requires a comment period that allows

the general public ample time to analyze its merits and comment fully.

2) All of us, the stakeholders, landowners, and the general public were not presented with this application, the materials, and appendices, and we received NO explanation of the process and criteria with which the Department of Energy will review and make a determination on this project in a formal setting, as was done with the Draft EIS.

We need public hearings to comment on this application, which is even more important than the EIS.

PLEASE schedule public hearings as soon as possible and provide wide notice to the public.

3) How do I know this??? I am a landowner in the path of this project was not informed until our county group contacted me to attend their meeting at a community church. This is not an honest group to be telling you that the landowners have been notified and they have also been hostile to several of the widows out in the Rural areas.

Thank you for your consideration in extending the comment period but more so in doing away with this project in the United States of America.

Genia Means,  
Sallisaw OK
