**Subject:** Plains and Eastern Clean Line Transmission Line - Part 2 Application

Dear Dr. Moniz,

We are writing regarding the Non-NEPA Section 1222 review for Clean Line Energy Partners, LLC's proposed Plains and Eastern HVAC line. We are requesting an extension to the comment period. A project this large should have a longer comment period to allow the general public enough time to analyze it and comment fully. As landowners affected by this project, we believe this review should include presentations done in a formal setting, as was done with the Draft EIS. We need public hearings to comment on this application, which is even more important than the EIS. Please schedule public hearings as soon as possible and provide wide notice to the public. Thank you for your consideration.
