### Information is power!

In order to successfully navigate the federal contracting industry and win federal contracts, you **MUST** know the rules and understand the strategy.

ChallengeHER has assisted woman business owners all across the country to help them understand the Women Owned Small Business (WOSB) Federal Procurement Program, the federal procurement process, and to connect them with the right people.

With this knowledge, you are much better positioned to grow your business and increase your revenue.

#### **WOSB federal contractors can have a unique opportunity to:**

- Understand about the WOSB Set Aside and how to market your business under this program
  - Network with peer mentors and other women business owned firms
  - Hear the best practices and real-life stories from a panel of WBOs
    - Learn from a panel of DOE Federal Buyers
