Soboba Reservation

Tribal Administration

Soboba Tribal Pre-School

Environmental Department

Mission Statement

The Soboba Band of Luiseño Indian's Tribal Environmental Department is committed to protecting, restoring, and enhancing natural resources on the Soboba reservation for all tribal members past, present, and future.

Funding Sources

- Clean Water Act Section 106
- Indian General Assistance Program
- Nonpoint Source 319
- U.S. E.P.A. Solid Waste
- U.S. E.P.A. LEAD Education
- CAL EPA Grant
- Integrated Resource Management Grant (BIA)
- EECSBG DOE

Tribe's Goal

- Reduce Energy usage in order to cut costs as well as minimize their carbon foot print and to set an example for the future generations.

Factors to Address

- Community
- Codes
- Transportation
- Capacity Building

Final Objectives

- One five year energy vision statement for the Soboba Tribe to include a minimum 5% benchmark reduction in energy usage for each year.
- One corresponding five year action plan to include specific “demand side” and “supply side” energy reduction projects.
- One corresponding community outreach campaign for addressing benchmark reduction goal.

Soboba Tribal Energy Planning Workgroup

- Tribal Community
- Public Works
- Environmental Department
- Economic Development Department
- Cultural Department
- Tribal Administration

Completion

- The Final Strategic Energy Planning document will be made available to the public as well as integrated at every future level of energy efficiency and conservation planning on the reservation.
- The proposed project will utilize the management concept based on the following components: Planning, Organizing, Directing, and Control. Project staff will work on an approved 12 month project implementation plan. This planning document will be the central reference document for all staff involved in this project.

Our Future
