

VACANCY ANNOUNCEMENT

16-0003

The mission of the U.S. Department of Energy's Office of Intelligence and Counterintelligence (DOE-IN) is to identify and mitigate threats to U.S. national security and the DOE Enterprise, and inform national security decision making through scientific and technical expertise.

As a member of the DOE-IN team, you will play a key role in reducing the global security threat, strengthening the nuclear security infrastructure, and buttressing America's economic prosperity. You will join an unmatched team of experts in a wide variety of disciplines including nuclear weapons and material security, energy security, economics, policy, climate change, science and technology, and cyber. Our mission support functions offer opportunities for professionals with backgrounds in law, finance, engineering, human resources, and information management.

DOE-IN offers a stimulating and collegial work environment, with work assignments that are on the forefront of America's national security priorities.

The U.S. Department of Energy Office of Intelligence and Counterintelligence is a member of the U.S. Intelligence Community. Most federal positions are within the Washington, D.C. area.

We recruit for the following career opportunities:

- **Energy Security Analyst**
 - Provide intelligence support to DOE and other USG policymakers on energy and environmental security.
- **Nuclear Security Analyst**
 - Identify and provide scientifically informed intelligence reporting and analysis on global nuclear weapons and material security.
- **Counterproliferation Analyst**
 - Provide technical analysis in support of the national security community's efforts to counter proliferation of nuclear and radiological weapons.
- **All Source Intelligence Analyst**
 - Identify and provide scientifically informed intelligence reporting and analysis on various subjects.
- **Cyber Security**
 - Characterize, counter, and predict threats to DOE systems, networks and personnel.
- **Information Technology/Network Operations**
 - Provide DOE-IN with IT solutions to enable its counterintelligence and cyber missions, and ensure operational readiness and security.

- **Counterintelligence Analyst**
 - Identify and provide scientifically informed intelligence reporting and analysis on various counterintelligence issues.
- **Counterintelligence Investigator**
 - Detect, Deter, Identify, and Neutralize threats to DOE personnel, facilities, and information by conducting counterintelligence, cyber and counterterrorism investigations.

If you are interested in joining our organization, we are looking for highly skilled, motivated and talented Americans with relevant education and experience to join our team. Please [send us your resume](#).

Your resume will be retained in active status for 6 months. Candidates will be contacted if and when an interview is desired.
