Roundtable: Tribal energy Business – Building Public-Private Partnerships

This panel brings together industry leaders in energy and technology to explore the essential ingredients for attracting investment and building innovation in Indian Country. With panelists from some of the nation’s most successful businesses, this session aims to demonstrate how public and private partners can drive investment and what it takes to expand access to capital to spur economic growth in Indian Country.

Moderator:

- Douglas C. MacCourt, Senior Policy Advisor, Office of Indian Energy Policy and Programs, U.S. DOE

Panelists:

- Michael Geffard, President, LIATI Group, LLC
- Jetta Wong, Director, Office of Technology Transfer, DOE (*invited*)

**4:15 – 5:45 p.m.
(Location TBD)**

Breakout Session 3: Energy Innovation – The Future of Energy Technology

What’s ahead? How can we keep supplying energy for the ever-growing population? How much will it cost? What impact will the energy choices we make have on our living conditions and our planet? Five global megatrends will shape the future of Indian Country: population growth and migration; climate change; technological innovations; higher living standards; and economic development. These indicators will force changes to the way energy is sourced, stored, transported and used. This panel will explore emerging changes in energy development and the industry rises to meet these growing challenges.

Moderator:

- David Conrad, Deputy Director, Office of Indian Energy Policy and Programs, DOE

Panelists:

- Jack Hebert, Chief Executive Officer and Founder, Cold Climate Housing Research Center
- Steve Moddemeyer, Principal, CollinsWoerman
- Robert Sherick, Principal Manager, Southern California Edison Advanced Technology
- Jetta Wong, Director, Office of Technology Transfer, DOE (*invited*)

Wednesday, March 23

10:45 a.m. – 12:30 p.m.
