Subject: Fw: public comment on federal register deny application byh rich white men to destroy America so they canmake money selling our gas

any gas drilld in america should go back to the stockpile, which obama has screwed america by opening to sell it. obama is tring to destroy the usa and has implemtened so many ways to destroy this country. this is one of them. any gas drilled here crates poison water and poison land and to do that to america so rich men can make big money selling to other contrues makes no sense and offers no protection to this country. we need to keep our natural gas here in this country. i am totally opposed to allowing these rich corporations to derill and poison america an dmake big money sellling us out. this is selling out america. obama is doing it. stop this with an impeeachment motion against this president. he is not helping us. we need to keep our gas here. this commetn is for the public record. please receipt. jean publee jeanpublie1@yahoo.com

> To date, American LNG has been granted, multi-contract
> authorizations for 20 year terms under DOE/FE Order Nos.
> 3601 and 3690
> to export LNG in a volume equivalent to 3.02 Bcf per year of
> natural
