Building Technologies Digest

The Building Technologies Digest provides a biweekly roundup of the latest news, funding opportunities, reports, events, and webinars from DOE's Building Technologies Office. Click the links below to learn more.

Asset Score:

Announcing Launch of Asset Score National Leadership Network

The U.S. Department of Energy announced partnerships with 21 companies, federal agencies, and state and local governments to promote the use of DOE's Building Energy Asset Scoring Tool. This free, web-based software tool identifies opportunities to improve the energy efficiency of a building's structure and energy-related systems.

Upcoming Funding Opportunity:

Commercial Energy Codes Field Studies

The U.S. Department of Energy has issued a notice of intent to release a funding opportunity focused on identifying the energy code requirements for commercial buildings that can provide the maximum cost-effective energy and cost savings through increased compliance.
