Abstract: The Office of Postsecondary Education (OPE) is seeking a renewed three-year clearance for the College Affordability and Transparency Explanation Form (CATEF) data collection. OPE has collected this information since 2011-12 and the collection of information through CATEF is required by § 132 of the Higher Education Act of 1965 as amended (HEA), 20 U.S.C. 1015a with the goal of increasing the transparency of college tuition prices for consumers. This submission is for the 2014-15, 2015-16, and 2016-17 collection years. CATEF collects follow-up information from institutions that appear on the tuition and fees and/or net price increase College Affordability and Transparency Center (CATC) Lists for being in the five percent of institutions in their institutional sector that have the highest increases, expressed as a percentage change, over the three-year time period for which the most recent data are available. The information collected through CATEF is used to write a summary report for Congress which is also posted on the CATC Web site (accessible through the College Navigator).

[FE Docket No. 14-98-LNG]

SCT&E LNG, LLC; Application for Long-Term, Multi-Contract Authorization To Export Liquefied Natural Gas to Non-Free Trade Agreement Countries

AGENCY: Office of Fossil Energy, DOE. **ACTION:** Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application (Application), filed on July 24, 2014, by SCT&E LNG, LLC (SCT&E LNG), requesting long-term, multi-contract authorization to export domestically produced liquefied natural gas (LNG) to any country with which the United States does not have a free trade agreement requiring national treatment for trade in natural gas and with which trade is not prohibited by U.S. law or policy (non-FTA countries). SCT&E LNG seeks authorization to export the LNG in a volume up to 12 million metric tons per annum, which SCT&E LNG states is equivalent to approximately 1.6 billion cubic feet (Bcf) per day of natural gas (or 584 Bcf per year). SCT&E LNG seeks authorization to export the LNG by

vessel from its proposed LNG terminal, which SCT&E LNG intends to construct, own, and operate on Monkey Island in the Calcasieu Ship Channel in Cameron Parish, Louisiana. SCT&E LNG requests this authorization for a 30-year term to commence on the earlier of the date of first export or 10 years from the date the requested authorization is granted. SCT&E LNG seeks to export this LNG on its own behalf and as agent for other entities who hold title to the LNG at the time of export. The Application was filed under section 3(a) of the Natural Gas Act (NGA). Additional details can be found in SCT&E LNG's Application, posted on the DOE/FE Web site at: http://energy.gov/fe/downloads/scte*lng-llc-14–98-lng.* Protests, motions to intervene, notices of intervention, and written comments are invited.

DATES: Protests, motions to intervene or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed using procedures detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, February 17, 2015.

SUPPLEMENTARY INFORMATION:

DOE/FE Evaluation

The Application will be reviewed pursuant to section 3(a) of the NGA, 15

U.S.C. 717b(a), and DOE will consider any issues required by law or policy. To the extent determined to be relevant, these issues will include the domestic need for the natural gas proposed to be exported, the adequacy of domestic natural gas supply, U.S. energy security, and the cumulative impact of the requested authorization and any other LNG export application(s) previously approved on domestic natural gas supply and demand fundamentals. DOE may also consider other factors bearing on the public interest, including the impact of the proposed exports on the U.S. economy (including GDP, consumers, and industry), job creation, the U.S. balance of trade, and international considerations; and whether the authorization is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. Parties that may oppose this Application should address these issues in their comments and/or protests, as well as other issues deemed relevant to the Application.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 et seq., requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its environmental responsibilities.

Due to the complexity of the issues raised by the Applicant, interested parties will be provided 60 days from the date of publication of this Notice in which to submit their comments, protests, motions to intervene, or notices of intervention.

Any person wishing to become a party to the proceeding must file a motion to intervene or notice of intervention. The filing of comments or a protest with respect to the Application will not serve to make the commenter or protestant a party to the proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the Application. All protests, comments, motions to intervene, or notices of intervention must meet the requirements specified by the regulations in 10 CFR part 590.

Docket No. 14-98-LNG in the title line; (2) mailing an original and three paper copies of the filing to the Office of Oil and Gas Global Security and Supply at the address listed in ADDRESSES; or (3) hand delivering an original and three paper copies of the filing to the Office of Oil and Gas Global Supply at the address listed in **ADDRESSES**. All filings must include a reference to FE Docket No. 14-98-LNG. Please Note: If submitting a filing via email, please include all related documents and attachments (e.g., exhibits) in the original email correspondence. Please do not include any active hyperlinks or password protection in any of the documents or attachments related to the filing. All electronic filings submitted to DOE must follow these guidelines to ensure that all documents are filed in a timely manner. Any hardcopy filing submitted greater in length than 50 pages must also include, at the time of the filing, a digital copy on disk of the entire submission.

A decisional record on the Application will be developed through responses to this notice by parties, including the parties' written comments and replies thereto. Additional procedures will be used as necessary to achieve a complete understanding of the facts and issues. If an additional procedure is scheduled, notice will be provided to all parties.
