

Big Eddy-Knight Transmission Project

Final Environmental Impact Statement

Volume 2: Appendices

July 2011

DOE/EIS-0421

Table of Contents

VOLUME 1: Environmental Analyses

Summary

S.1	Purpose of and Need for Action	S-1
S.1.1	Background	S-1
S.1.2	Public Involvement	S-2
S.2	Project Overview	S-2
S.2.1	Proposed Action Alternatives	S-3
S.2.2	No Action Alternative	S-5
S.3	Affected Environment	S-5
S.4	Environmental Impacts	S-7
S.4.1	Land Use and Recreation	S-7
S.4.2	Visual Resources	S-8
S.4.3	Vegetation	S-10
S.4.4	Geology and Soils.....	S-10
S.4.5	Water Resources and Wetlands	S-11
S.4.6	Wildlife.....	S-12
S.4.7	Fish.....	S-13
S.4.8	Cultural Resources	S-14
S.4.9	Socioeconomics	S-15
S.4.10	Transportation	S-16
S.4.11	Noise	S-17
S.4.12	Public Health and Safety.....	S-18
S.4.13	Air Quality	S-18
S.4.14	Greenhouse Gases	S-18
S.4.15	Fiber Optic Cable and Wautoma Substation	S-19
S.4.16	Cumulative Impacts	S-20
Chapter 1	Purpose of and Need for Action	1-1
1.1	Background	1-1
1.2	Need for Action	1-5
1.3	Purposes	1-6
1.4	Transmission System Benefits	1-6
1.5	Agency Roles	1-6
1.5.1	Lead and Cooperating Agencies	1-6
1.5.2	Other Agencies That May Use This EIS	1-7
1.6	Public Involvement and Major Issues	1-7
1.6.1	Scoping Outreach	1-7
1.6.2	Scoping Comment Summary	1-8
1.6.3	<u>Draft EIS Public Outreach</u>	1-9

1.7	Issues Outside the Scope of the Proposed Action or this EIS	1-10
1.7.1	Regional Generation Development	1-10
1.7.2	Regional Transmission Development	1-11
1.7.3	Conservation.....	1-11
1.8	Organization of this EIS.....	1-11
Chapter 2	Proposed Action and Alternatives	2-1
2.1	Overview of the Action Alternatives	2-1
2.2	Transmission Line Siting.....	2-2
2.3	Project Components	2-4
2.3.1	Easements and Land	2-4
2.3.2	Transmission Line	2-5
2.3.3	Substations	2-13
2.3.4	Access Roads.....	2-15
2.3.5	Vegetation Clearing	2-16
2.3.6	Final Design and Construction	2-16
2.3.7	Construction Schedule and Work Crews	2-17
2.3.8	Maintenance.....	2-18
2.3.9	Estimated Project Cost	2-19
2.4	Proposed Action Alternatives	2-19
2.4.1	Big Eddy Substation	2-19
2.4.2	West Alternative.....	2-20
2.4.3	Middle Alternative.....	2-26
2.4.4	East Alternative (Preferred).....	2-27
2.4.5	Knight Substation Options.....	2-29
2.4.6	<u>Wautoma Substation</u>.....	2-31
2.4.7	Fiber Optic Cable Options.....	2-31
2.5	No Action Alternative	2-32
2.6	Alternatives Considered but Eliminated from Detailed Study.....	2-32
2.6.1	Non-Transmission Alternatives	2-33
2.6.2	Transmission Line Alternatives.....	2-34
2.6.3	Undergrounding the Transmission Line	2-34
2.6.4	Transmission Line Routing Options	2-36
2.6.5	Alternate Substation Site.....	2-39
2.7	<u>Representative Views</u>.....	2-39
2.8	Comparison of Alternatives	2-50
Chapter 3	Affected Environment, Environmental Impacts, and Mitigation Measures	3-1
3.1	Land Use and Recreation	3-3
3.1.1	Affected Environment	3-3
3.1.2	Environmental Consequences	3-8
3.1.3	Mitigation Measures	3-24
3.1.4	Unavoidable Impacts Remaining after Mitigation.....	3-24
3.1.5	No Action Alternative	3-25

3.2	Visual Resources.....	3-26
3.2.1	Affected Environment	3-26
3.2.2	Environmental Consequences	3-28
3.2.3	Mitigation Measures	3-58
3.2.4	Unavoidable Impacts Remaining after Mitigation.....	3-59
3.2.5	No Action Alternative	3-59
3.3	Vegetation.....	3-60
3.3.1	Affected Environment	3-60
3.3.2	Environmental Consequences	3-65
3.3.3	Mitigation Measures	3-76
3.3.4	Unavoidable Impacts Remaining after Mitigation.....	3-77
3.3.5	No Action Alternative	3-77
3.4	Geology and Soils	3-78
3.4.1	Affected Environment	3-78
3.4.2	Environmental Consequences	3-80
3.4.3	Mitigation Measures	3-86
3.4.4	Unavoidable Impacts Remaining after Mitigation.....	3-86
3.4.5	No Action Alternative	3-87
3.5	Water Resources and Wetlands	3-88
3.5.1	Affected Environment	3-88
3.5.2	Environmental Consequences	3-91
3.5.3	Mitigation Measures	3-101
3.5.4	Unavoidable Impacts Remaining after Mitigation.....	3-102
3.5.5	No Action Alternative	3-102
3.6	Wildlife.....	3-103
3.6.1	Affected Environment	3-103
3.6.2	Environmental Consequences	3-112
3.6.3	Mitigation Measures	3-119
3.6.4	Unavoidable Impacts Remaining after Mitigation.....	3-120
3.6.5	No Action Alternative	3-120
3.7	Fish.....	3-121
3.7.1	Affected Environment	3-121
3.7.2	Environmental Consequences	3-123
3.7.3	Mitigation Measures	3-126
3.7.4	Unavoidable Impacts Remaining after Mitigation.....	3-126
3.7.5	No Action Alternative	3-126
3.8	Cultural Resources.....	3-127
3.8.1	Affected Environment	3-127
3.8.2	Environmental Consequences	3-130
3.8.3	Mitigation Measures	3-133
3.8.4	Unavoidable Impacts Remaining after Mitigation.....	3-134
3.8.5	No Action Alternative	3-134

3.9	Socioeconomics	3-135
3.9.1	Affected Environment	3-135
3.9.2	Environmental Consequences	3-140
3.9.3	Mitigation Measures	3-149
3.9.4	Unavoidable Impacts Remaining after Mitigation.....	3-149
3.9.5	No Action Alternative	3-149
3.10	Transportation	3-150
3.10.1	Affected Environment	3-150
3.10.2	Environmental Consequences	3-151
3.10.3	Mitigation Measures	3-155
3.10.4	Unavoidable Impacts Remaining after Mitigation.....	3-155
3.10.5	No Action Alternative	3-155
3.11	Noise	3-156
3.11.1	Affected Environment	3-156
3.11.2	Environmental Consequences	3-157
3.11.3	Mitigation Measures	3-161
3.11.4	Unavoidable Impacts Remaining after Mitigation.....	3-161
3.11.5	No Action Alternative	3-161
3.12	Public Health and Safety	3-162
3.12.1	Affected Environment	3-162
3.12.2	Environmental Consequences	3-163
3.12.3	Mitigation Measures	3-171
3.12.4	Unavoidable Impacts Remaining after Mitigation.....	3-172
3.12.5	No Action Alternative	3-172
3.13	Air Quality	3-173
3.13.1	Affected Environment	3-173
3.13.2	Environmental Consequences	3-173
3.13.3	Mitigation Measures	3-175
3.13.4	Unavoidable Impacts Remaining after Mitigation.....	3-175
3.13.5	No Action Alternative	3-175
3.14	Greenhouse Gases	3-176
3.14.1	Affected Environment	3-176
3.14.2	Environmental Consequences	3-177
3.14.3	Mitigation Measures	3-181
3.14.4	Unavoidable Impacts Remaining after Mitigation.....	3-182
3.14.5	No Action Alternative	3-182
3.15	Fiber Optic Cable <u>and Wautoma Substation</u>	3-183
3.15.1	Affected Environment	3-184
3.15.2	Environmental Consequences	3-186
3.15.3	Mitigation Measures	3-188
3.15.4	Unavoidable Impacts Remaining after Mitigation.....	3-188
3.15.5	No Action Alternative	3-188

3.16	Intentional Destructive Acts	3-189
3.17	Irreversible or Irrecoverable Commitment of Resources	3-190
3.18	Relationship Between Short-Term Uses of the Environment and Long-Term Productivity.....	3-190
Chapter 4	Cumulative Impacts.....	4-1
4.1	Affected Resources, Resource Boundaries, and Cumulative Actions.....	4-1
4.2	Cumulative Impacts Analysis	4-12
Chapter 5	Consultation, Permit, and Review Requirements	5-1
5.1	National Environmental Policy Act (NEPA)	5-1
5.2	Endangered Species Act (ESA) of 1973	5-1
5.3	Fish and Wildlife Conservation Act of 1980	5-2
5.4	Magnuson-Stevens Fishery Conservation and Management Act	5-2
5.5	Migratory Bird Treaty Act of 1918.....	5-2
5.6	Bald and Golden Eagle Protection Act of 1940	5-3
5.7	Federal Noxious Weed Act.....	5-3
5.8	Clean Air Act.....	5-3
5.9	Greenhouse Gases	5-4
5.10	Clean Water Act.....	5-5
5.11	Floodplains and Wetlands (Executive Orders 11988 and 11990).....	5-6
5.12	Rivers and Harbors Act of 1899.....	5-6
5.13	Hazardous Materials.....	5-7
5.14	Cultural Resources	5-8
5.15	<u>Tribal Consultation</u>	5-10
5.16	Federal Aviation Administration Review	5-10
5.17	National Trails System Act	5-10
5.18	Noise Control Act.....	5-11
5.19	Environmental Justice.....	5-12
5.20	Federal Communications Commission Regulations	5-12
5.21	Farmland Protection Policy Act.....	5-12
5.22	National Scenic Byways Program	5-13
5.23	Columbia River Gorge National Scenic Area Act	5-13
5.24	National Forest Management Act	5-15
5.25	State, Area-Wide, and Local Plan and Program Consistency	5-15
5.25.1	Oregon Land Use Planning	5-15
5.25.2	Washington Land Use Planning	5-17
5.25.3	Critical Areas Ordinances.....	5-19
5.25.4	Transportation.....	5-20

Chapter 6 Consistency with State Substantive Standards.....	6-1
6.1 Washington EFSEC Standards.....	6-2
6.1.1 Natural Environment – Energy and Natural Resources	6-2
6.1.2 Transportation	6-3
6.1.3 Socioeconomics	6-4
6.1.4 Land Use Zoning	6-6
6.1.5 Site Restoration and Preservation.....	6-6
6.1.6 Geology and Soils.....	6-6
6.1.7 Water Quality	6-6
6.1.8 Wetlands.....	6-7
6.1.9 Fish and Wildlife	6-7
6.1.10 Air Quality	6-8
6.1.11 Public Health and Safety.....	6-8
6.2 Washington Department of Natural Resources Standards	6-9
6.2.1 Compliance and Cooperation with other State and Federal Laws	6-9
6.2.2 Natural Areas Preserve Act.....	6-10
6.2.3 Geology and Soils.....	6-10
6.2.4 Water Quality	6-10
6.2.5 Biological Resources	6-11
6.2.6 Cultural Resources	6-11
6.2.7 Land Use and Socioeconomics	6-11
6.2.8 Fish and Wildlife	6-12
6.2.9 Transportation and Access	6-12
6.2.10 Public Health and Safety.....	6-13
6.2.11 Washington’s Forest Practices Act and Rules	6-13
6.2.12 State Owned Aquatic Lands	6-13
6.3 Washington Department of Fish and Wildlife Standards	6-14
6.4 Washington Department of Ecology	6-17
6.4.1 Shorelines and Wetlands	6-17
6.4.2 Water Quality	6-17
6.4.3 Air Quality	6-18
6.5 Washington Department of Archaeology and Historic Preservation Standards	6-19
6.6 Oregon Department of Energy	6-19
6.6.1 Soil and Geologic Resources	6-19
6.6.2 Land Use	6-20
6.6.3 Fish and Wildlife Habitat	6-20
6.6.4 Aesthetics	6-20
6.6.5 Historic, Cultural, and Archaeological Resources	6-20
6.6.6 Recreation.....	6-21
6.6.7 Socioeconomics	6-21
6.6.8 Public Health and Safety.....	6-21
6.6.9 Air Quality.....	6-22
6.6.10 Water Resources.....	6-22

Chapter 7 Consistency with the Management Plan for the Columbia River Gorge National Scenic Area Substantive Standards	7-1
7.1 Overview	7-1
7.2 Land Use.....	7-1
7.3 Scenic Resources	7-5
7.4 Natural Resources	7-5
7.5 Cultural Resources.....	7-8
7.6 Recreation Resources	7-8
Chapter 8 List of Preparers	8-1
Chapter 9 References	9-1
Chapter 10 Agencies, Organizations, and Persons <u>Receiving Notice of the Availability of this EIS</u>	10-1
Chapter 11 Glossary and Acronyms	11-1
Chapter 12 Index	12-1

Tables

Table 2-1. Disturbance Areas for Single- and Double-Circuit Towers (in acres).....	2-8
Table 2-2. West Alternative Options—Tower Configurations by Line Mile.....	2-22
Table 2-3. Estimated Access Road Needs By Action Alternative	2-25
Table 2-4. Middle Alternative Options—Tower Configurations by Line Mile.....	2-27
Table 2-5. East Alternative Options—Tower Configurations by Line Mile	2-29
Table 2-6. Comparison of Proposed Action Alternatives to Project Purposes	2-51
Table 2-7. Summary of Environmental Impacts by Alternative	2-53
Table 2-8. Proposed Mitigation Measures for the Action Alternatives.....	2-59
Table 3-1. Public and Tribal Lands in the Project Area	3-4
Table 3-2. Approximate Transmission Line Lengths and New Right-of-Way by Land Ownership and Action Alternative	3-12
Table 3-3. Permanent Access Road Miles by Land Ownership and Action Alternative.....	3-13
Table 3-4. Impacts on Land Use by the West Alternative.....	3-14
Table 3-5. Impacts on Land Use by the Middle Alternative.....	3-18
Table 3-6. Impacts on Land Use by the East Alternative	3-20
<u>Table 3-6.1. Impacts on Land Use by the Knight Substation Sites</u>	<u>3-22</u>
Table 3-7. Parks, Highways and Trails in or near the Project Area	3-27
Table 3-8. Scenic and Populated Areas Impacted by Action Alternative.....	3-31
Table 3-9. Special-Status Plants Documented along Action Alternatives.....	3-61
Table 3-10. Permanent Impacts on Special-Status Plants along the West Alternative	3-67
Table 3-11. Impacts on Vegetation Types and Priority Ecosystems on the West Alternative.....	3-68
Table 3-12. Woodland Locations and Potential Tree Removals along the Action Alternatives	3-70
Table 3-13. Impacts on Vegetation Cover Types and Priority Ecosystems on the Middle Alternative	3-72
Table 3-14. Impacts on Vegetation Cover Types and Priority Ecosystems on the East Alternative	3-73
<u>Table 3-14.1. Impacts on Vegetation by the Knight Substation Sites.....</u>	<u>3-75</u>
Table 3-15. Potential Erosion (Soil Loss) Impacts by Action Alternative	3-82

Table of Contents

Table 3-16. Landslide Areas Disturbed by Action Alternative	3-82
Table 3-17. Tower Disturbance within 50 Feet of Intermittent Streams by Action Alternative.....	3-93
Table 3-18. Number of Streams Crossed by Access Roads by Action Alternative	3-93
Table 3-19. Potentially Impacted Wetlands/Buffers along the West Alternative	3-95
Table 3-20. Potential Wetland Impacts by Action Alternative	3-96
Table 3-21. Potentially Impacted Wetlands/Buffers along the Middle Alternative	3-98
Table 3-22. Potentially Impacted Wetlands/Buffers along the East Alternative.....	3-100
Table 3-23. Special-Status Species Documented or with Potential to Exist along the Action Alternatives.....	3-104
Table 3-24. Fish-Bearing Streams Crossed by the Action Alternatives.....	3-122
Table 3-25. Approximate Tower Distances from Intersections with Fish-Bearing Streams	3-125
Table 3-26. Identified Cultural Resource Sites by Action Alternative	3-128
Table 3-27. Reductions in Output and Labor Income Resulting from Farmland Displacement and Disturbance along the Action Alternatives.....	3-146
Table 3-28. Reductions in Output and Labor Income from Farmland Displacement and Disturbance at Knight Substation	3-148
Table 3-29. Average Daily Traffic for Primary Roads in the Project Area	3-150
Table 3-30. Common Noise Levels.....	3-156
Table 3-31. Construction Equipment Noise Levels	3-158
Table 3-32. Construction Equipment Noise Levels by Distance.....	3-158
Table 3-33. Houses/Businesses near the Action Alternatives	3-160
Table 3-34. Typical Magnetic Field Levels.....	3-163
Table 3-35. Magnetic Field Levels at Houses/Business near the Action Alternatives	3-169
Table 3-36. Estimated Greenhouse Gas Emissions from the Action Alternatives	3-179
Table 3-37. Net Carbon Footprint Associated with the Removal of Trees by Action Alternative	3-181
Table 3-38. Fish-Bearing Streams Crossed by the Wautoma Option.....	3-185
