RL-721 REV 4

NEPA REVIEW SCREENING FORM

Document ID Number:

DOE/CX-00111, Rev 0

I. Project Title:

MSA Annual Categorical Exclusion for Routine Maintenance and Custodial Services under 10 CFR 1021, Subpart D, Appendix B, B1.3

II. Project Description and Location (including Time Period over which proposed action will occur and Project Dimensions - e.g., acres displaced/disturbed, excavation length/depth, area/location/number of buildings, etc.):

Mission Support Alliance (MSA) and its subcontractors perform routine maintenance and custodial services on Hanford buildings, structures, infrastructures, and equipment in previously disturbed and developed areas. Routine maintenance and custodial services include those in MSA contract DE-AC06-09RL14728, Attachment J.3. Buildings, structures, infrastructures, and equipment subject to routine maintenance and custodial services include those in Section J.13 and J.14 of the Mission Support Contract where MSA is the assigned contractor or provides services to other Hanford contractors. Routine maintenance and custodial services discussed in MSC-PRO-12115, "Work Management" are also included.

Custodial services preserve facility appearance, conditions, and sanitation (cleaning, window washing, lawn mowing, trash removal, painting, pest control, and snow removal). Routine maintenance is corrective, preventive, and predictive to maintain buildings, structures, infrastructures, and equipment in a condition suitable for designated uses. Routine maintenance includes, but is not limited to:

- Repair/replace vehicle and facility equipment;
- Repair/replace walls, ceilings, floors, doors, windows, and roofs;
- Repair/replace plumbing, electrical, lighting, HVAC, computer, and telephone services;
 Repair/replace high-efficiency particulate air filters and other filters;
- Repair/replace fire protection or security systems;
- · Repair road embankments/shoulders, road/parking area resurfacing, and existing right-ofways;
- Ērosion control/soil stabilization (reseeding, gabions, grading, and revegetation);
 Surveillance/maintenance of surplus facilities per DOE Order 435.1, "Radioactive Waste Management";
- Inspect/repair/maintain transmission facilities (conductors, poles, circuit breakers, transformers, capacitors, cross-arms, insulators, and downed powerlines);
- · Routine testing/calibration of facility components, subsystems, or portable equipment;
- · Routine decontamination of equipment, rooms, hot cells, or other interior surfaces of buildings and removal of contaminated intact equipment, debris, or other material.

Plant and animal species will be reviewed for protection under the Endangered Species Act, candidates for protection, or listing by Washington State as threatened or endangered. Caution will be exercised during bird nesting season (mid-March to mid-July). If nesting birds, a pair of birds of the same species, or bird defensive behaviors are observed, an Ecological Resource Specialist will be contacted for further quidance.

Cultural resources will be reviewed for protection under the Historic Buildings Programmatic Agreement (DOE/RL-96-77), Historic Buildings Treatment Plan (DOE/RL-97-56), Cultural Resources Management Plan (DOE/RL-98-10), and other applicable requirements. Workers will be directed to watch for cultural materials (bones, stone tools, mussel shell, cans, bottles). If encountered, work near the discovery will stop until a Cultural Resource Specialist is contacted, the significance of the find assessed, appropriate Tribes notified, and mitigation arranged, as needed.

This is an annual CX as allowed by 10 CFR 1021 and must be reauthorized by the Hanford Site NEPA Compliance Officer one-year from the date of approval.

III. Reviews (if applicable):						- The second					
Biological Review Report #:	Obtained	prior	to	initiating	work	per	MSA	and	DOE-RL	requireme	nts.

Cultural Review Report #: Obtained prior to initiating work per MSA and DOE-RL requirements.

NEPA REVIEW SCREENING FORM (continued) DOE/CX-001												
IV. Existing NEPA Documentation												
Is the proposed action evaluated in a previous EA, EIS, or under CERCLA?												
If "NO," proceed to Section V. If "YES," List EA, EIS, or CERCLA Document(s) Title and Number:												
Not Applicable												
And then complete Section VI. Provide electronic copy of Initiator/ECO signed NRSF to DOE NCO for information only. DOE NCO signature is not required.												
V. Categorical Exclusion												
Does the proposed action fall within a class of actions that is listed in Appendixes A or B to Subpart D of 10 CFR Part 1021?												
Are there extraordinary circumstances related to the proposal that may affect the significance of the environmental effects of the proposal?												
Is the proposal connected to other actions with potentially significant impacts or result in cumulatively significant impacts (not precluded by 40 CFR 1506.1 or 10 CFR 1021.211)?												
List CX to be applied and complete Categorical Exclusion Integral Elements (where an action might fit within multiple CXs, use the CX that best fits the proposed action):												
10 CFR 1021, Subpart D, Appendix B, B1.3, "Routine Maintenance"												
Categorical Exclusion Integral Elements												
Does the proposed action threaten a violation of applicable statutory, regulatory, or permit requirements for environmental, safety, or health, including DOE and/or Executive Orders?												
Does the proposed action require siting, construction, or major expansion of waste storage, disposal, recovery, or treatment facilities?												
Does the proposed action disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that pre-exist in the environment such that there would be uncontrolled or unpermitted releases?												
Does the proposed action adversely affect environmentally sensitive resources?												
Does the proposed action involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species such that the action is NOT contained or confined in a manner designed, operated, and conducted in accordance to applicable requirements to prevent unauthorized release into the environment?												
If "NO" to all Categorical Exclusion Integral Elements questions above, complete Section VI, and provide to DOE NCO for final Approval/Determination and signature in Section VII.												
If "YES" to any of the Categorical Exclusion Integral Elements questions above, contact DOE NCO for add	ditional NEPA Re	eview.										
VI. Responsible Contractor Signatures		Date										
Name (Printed) Signature												
Initiator Jerry W. Cammann, MSA NEPA SME J. W. Camman	JW Cammann											
Cognizant Environmental Compliance Officer												
VII. Approval/Determination												
DOE NEPA Compliance Officer: Woody Russell												
Based on my review of information conveyed to me and in my possession (or attached) concerning the proposed action, as NEPA Compliance Officer (as authorized under DOE Order 451.1B), I have determined that the proposed action fits within the specified class of action:												
NCO Determination - CX												
Signature: Nasaf Kussell Date: 13/5/13
