

Monday - Risk Management

Last Updated: 3/23/2012

Risk Management		
2:00-2:15 p.m.	<p>Welcome and Summit Overview Gil Vega, Chief Information Security Officer, U.S. Department of Energy</p>	Trinity Ballroom 4
2:00-5:00 p.m.	<p>OCIO Risk Management Summit Part II Diving Deep: Processes and Lessons Learned from Risk Management Implementation</p> <p>The OCIO is pleased to announce the Risk Management Summit, Part II at the 2012 Information Management Conference. This summit will begin with opening remarks from Alan Paller, Director of Research, SANS Institute, on the state of implementing risk-based management programs across the Federal government. Mr. Paller will also facilitate a panel of DOE site representatives to discuss "Diving Deep: Processes and Lessons Learned from Risk Management Implementation."</p> <p>During this discussion, each panelist will have an opportunity to present site specific implementations and lessons learned. After panel presentations are complete, Mr. Paller will open the floor for an interactive Question & Answer session. This will give attendees an opportunity for open discussion of risk management implementation successes and issues throughout the complex. This summit is open to all IMC attendees.</p>	Trinity Ballroom 4
