

Piketon Site Partnering Agreement 2011

On behalf of the taxpayers of this nation and the communities of the four counties surrounding the former Gaseous Diffusion Plant Site in Piketon, Ohio, we, the U.S. Department of Energy and its Prime Contractors, stand together as One Site Team.

We enter into this Partnering Agreement with the conviction and shared responsibility to operate and clean up the Piketon Site safely and efficiently -- while protecting the public health and the environment.

We believe that – only together – can we return the Site to the community as a platform for sustainable regional growth and new jobs.

Shared Vision

To develop an environmentally clean industrial site that will attract new public and private investment and lead to better lives for the people of Appalachian Ohio.

Rules of Engagement

Openness in communications and expressing our viewpoints;

Understanding of others' goals, roles, and responsibilities;

Respect each others' contributions to build trust;

Straightforward speaking first to those directly involved in a given situation;

Interdependence in sharing credit for accomplishments: it's the Team;

Transparency in communicating honestly and frequently with stakeholders;

Enthusiasm for attracting Federal cleanup funding and commercial ventures.

This is Our Site. We can make resources and mountains move for the good of the communities of Pike, Scioto, Ross and Jackson counties.
