

Western Governors' Association

Transportation Update

William B. Mackie
Program Manager

Western States' Update

- Department of Energy & Western Governors renewed and signed a Memorandum of Agreement in 2003
- Revised WGA WIPP Program Implementation Guide approved in December 2003 and published earlier this year
- Funded CVSA Inspection Results Update on WIPP Shipments
- Facilitated negotiations between Western States and DOE on shipments of Transuranic Waste between NTS and the WIPP
- Reviewed Transportation Plans and Lessons Learned from a number of projects (FRR shipments, SNF Shipments, West Valley Lessons Learned, etc.)

Western States' Unresolved Issues

- Shipments to the Waste Isolation Pilot Plant using rail
- DOE Security Protocols
- Development of a negotiated route for the second half of the NTS Shipments to WIPP
