

YOUR ENERGY + OURS

Steve Malnight, Vice President
Customer Energy Solutions
May 22nd, 2013

Leading By Example

- We know it's never been more important for **federal** agencies to find ways to conserve energy and reduce both your costs and your carbon footprint
- 2nd largest customer in PG&E Territory
- Over 200 million sq. ft/ and 35,000 buildings
- 5+MW and over 30 Million kWh in energy savings in the last 5 years.

Robert E. Coyle U.S. Courthouse
Energy Star rated Commercial Building
Fresno, CA (Managed by GSA)

Federal Goals are Aligned with Utility Goals

- Federal mandates are aggressive
 - Executive Order 13423
 - EISA Act of 2007
- 30% reduction in energy use by 2015
- California mandates align
 - AB32
 - RPS goal of 33%

Utility Energy Service Contracts (UESC)

- National Aeronautics and Space Administration
NASA AMES
Annual cost savings:
\$1,648,331
- Internal Revenue Service
Fresno Office
Annual cost savings:
\$982,846
- Veteran Affairs
San Francisco VA Hospital
Annual cost savings:
\$1,076,702

What does the future hold?

- Department of Defense (DoD) Electric Vehicle Pilot
- Expansion of Utility Energy Service Contract (UESC) program

Accomplish energy change within your organization⁷
