BIO’s

• James Pollard is a Construction Safety Coordinator for B&W Y-12. In this role, James coordinates all aspects of Safety and Health, for direct hire and subcontractor work. James is a Certified Safety Professional (CSP) and holds an A.A.S. degree in Occupational Safety and Health from Trinidad State Junior College. James is an advocate of the ISMS process and believes that worker involvement is the key to Zero accidents and injuries.

• Monica Lewis is employed by B&W Y-12 as a Carpenter working out of Carpenters Local Union 50 in Oak Ridge, TN. Since 1991 Monica has worked at the Y-12 plant where her jobs have included; carpentry, escorting non-cleared personnel, leading the craft safety team as well as the Behavior Based Safety Process for construction. In her current role as facilitator she has traveled to California, Texas, and various places in Tennessee to attend workshops or give presentations on the Behavior Based Safety process, most recently at the Labor Management Conference in Nashville.
BIO’s

• Stacy Miller is a third generation Sheet Metal worker, out of Local Union 5, who served her apprentice in California and Las Vegas. Stacy has been at the Y-12 plant in Oak Ridge since January 2008 and served on the craft safety team for four months. Stacy was an asset to the team in identifying several safety issues. Stacy likes to challenge herself where her work is concerned. Stacy hopes to one day become an instructor in her local unions apprenticeship program.

• Cody Hendrix is an Ironworker Apprentice with B&W Y-12. In this role he works with journeyman iron workers who teach him all aspects of the craft including rigging, welding, burning and the correct way to erect large structures. Prior to starting his apprenticeship, Cody worked for Sea Ray Boats and PBR-Knoxville. Cody attended both Hiwassee and Carson-Newman College.

ZERO ACCIDENTS AND INJURIES

Safety is no Accident

Zero Accidents and Injuries (5 years without an OSHA Lost Work Day Away injury) are only achievable through hard work, dedication and the willingness of everyone to get involved in not only their own safety but also the safety of their co-workers.

Worker involvement is the key to success and a critical component in all phases of the work process, from inception to close out.
