

Balancing Priorities, Maintaining Momentum

- *Purpose:* Develop ideas to work on together to help maintain momentum in the Oak Ridge environmental cleanup program
- *Format:* Interactive
 - Education portion focused on the federal budgeting process, recent accomplishments and future plans
 - Breakout sessions to discuss and develop ideas
- *Path Forward:* Determine which ideas we will adopt and develop a plan for implementation

- **Alternative contracting strategies for new projects**
 - Structure contracts to provide ample opportunities for small businesses
 - Use contract types that reward companies for excellent performance, and reduces profits for poor performance
- **Balancing competing priorities with available budget**
 - Priorities should be established based on reduction of risk and cost
 - Continue to engage the community on cleanup priorities through public outreach
- **Planning for Beyond DOE – including Reindustrialization, Historic Preservation, etc.**
 - Eliminate risks first, and give consideration to sequencing subsequent cleanup activities to support end states
 - Strengthen partnerships needed to sustain end states
