RE: Ex Parte discussion of commercial fan and blower rulemaking

On November 3rd, Jordan Doria, Manager of Stakeholder Engagement, Ingersoll Rand, convened a teleconference with John Cymbalsky and Daniel Cohen of DOE. The purpose of the discussion was to address issues pertaining to the ongoing commercial and industrial fan and blower rulemaking as they impact Ingersoll Rand's Trane products. Jordan updated John and Daniel on the impacts of the rule on Trane and other HVAC products and provided a history of Trane's actions around the rule.

Respectfully,

A handwritten signature in cursive script that reads "Jordan Doria".
