

## 2013 Volkswagen Jetta TDI ICE Accelerated Testing - September 2014

Four model year 2013 Volkswagen Jetta TDI internal combustion engine (ICE) vehicles entered Accelerated Testing during November 2012 in a fleet in Arizona. Each Jetta will be operated for 195,000 miles. One-page vehicle maintenance logs are posted on nearby www pages. This information includes the date and mileage for all maintenance and repairs performed on the vehicles. The four 2013 Volkswagen Jetta TDI ICEs have been driven a total of 256,829 miles. The cumulative average fuel economy is 36.3 mpg. Monthly diesel consumption for each vehicle is captured in the vehicle specific fact sheet on the AVTA web site. Note that all four vehicles were moved to a taxi service in April 2014.
