Procurement Executive Award

Office of Science

Source Selection Evaluation Team (SSET)

Information Technology Support Services

- **Awarded a single information technology task order, consolidating work previously performed under multiple prime contracts, while successfully retaining small business participation**
- **Developed unique contract language allowing for incremental funding of fixed price components, and reduced risk to the Department by transitioning cost reimbursable work to fixed price**
- **Team's efforts resulted in significant efficiencies with an estimated cost savings of \$28.7 million.**

Federal Project Director of the Year

Pepin Carolan
