**Subject:** PLAINS & EASTERN CLEAN LINE TRANSMISSION LINE - PART 2 APPLICATION

Dear Dr. Moniz,

In regard to the Non-NEPA Section 1222 review for Clean Line Energy Partners, LLC's proposed Plains & Eastern HVDC line, I am writing to request an extension of the comment period, which

presently does not allow adequate time to review Clean Line's application in its entirety. A project of this scope requires ample time for the general public to analyze its merits and comment fully.

The stakeholders, landowners, and the general public, were not presented with this application, the materials and appendices, and we received no explanation of the process and criteria with which the Department of Energy will review and make a determination on this project in a formal setting, as was done with the Draft EIS. We need public hearings to comment on this application, which is even more important than the EIS. Please schedule public hearings as soon as possible and provide widespread notice to the public.

Thank you for your consideration,

Laurie Smith

Moberly MO

concerned citizen in area where Clean Line is pursuing passage for another power line.
