Subject: Request your dis-approval of Clean Line's Request

DOE

It has been brought to my attention Plains & Eastern Clean Line has submitted a request to the Department of Energy (DOE) so they may gain rights of eminent domain under Section 1222 of the 2005 Energy Policy Act.

The taking of our property and rights therein without our approval is forcing this power line down our throats. Wished we citizens could do something similar with Government Agencies that approve such actions.

When we land owners have no control of our own property can we still say this is a government of the people and by the people?

I strongly protest this line wanting to come across my property in Major County of Oklahoma if for no other reason than Clean Line requesting "eminent domain"!!!!!!!!!!!!!!
