**Subject:** PLAINS & EASTERN CLEAN LINE TRANSMISSION LINE-PART 2 APPLICATION

Dear Dr. Moniz,

I have written several times expressing why Plains & Eastern Clean Transmission Line would not be good for Arkansas. I am writing today concerning the Non-NEPA Section 1222 review for Clean Line Energy Partners, LLC's proposed line.

The Comment period does not give us adequate time to review Clean Line's application, and I am requesting an extension to the comment period. More time is needed to give the general public enough time to analyze its merits and comment fully.

Landowners like myself, along with stakeholders, and the general public, were not presented with this application, the materials and appendices, and we received no explanation of the process and criteria with which the Department of Energy will review and make a determination on this project in a formal setting, as was done with the Draft EIS. We need public hearings to comment on this application, which is even more important than the EIS. Please schedule public hearings as soon as possible and provide wide notice to the public.

Thank you for your consideration,

Shirley J. Gilbert
