

DOE Durability Working Group Meeting

Thursday, May 28, 2015, 2:00 pm to 6:00 pm
Argonne National Laboratory
9700 S. Cass Avenue, Lemont, IL
Energy Sciences Building, Building 241, Room A323

- 2:00 pm Arrive and get settled.
(Substantial refreshments available, i.e., not dinner, but enough to get you by until after 6 pm).
- 2:05 pm **Welcome and introductory comments**
Debbie Myers (Argonne), Rod Borup (LANL), Donna Ho (DOE),
Co-chairs of Durability Working Group
- 2:10 pm Discussion of Durability Protocols: Recent changes, new protocols,
thoughts on coordination of protocols with Japanese and Europeans
Facilitator: Rod Borup
- 3:00 pm Nuvera Perspective on Durability Shortcomings and Research Needs
Olga Polevaya, Nuvera
- 3:30 pm Discussion on membrane and gas diffusion layer durability – adequate or
not?
Facilitator: Rod Borup
- 4:00 pm Discussion on: (1) what DOE can do to improve understanding of
PEMFC degradation and to improve PEMFC durability and (2) interesting
findings from Chicago ECS meeting related to PEMFC performance and
durability
Facilitator: Donna Ho
- 4:30 pm Discussion of Review Manuscript on PEMFC Durability Issues
Facilitator: Debbie Myers
- 5:30 pm Wrap-up, action items, miscellaneous items
- 6:00 pm Adjourn
