Dear Sirs,

I oppose the Corpus Christi Liquefaction, LLC; Application for Long-Term, Multi-Contract Authorization To Export Liquefied Natural Gas to Non-Free Trade Agreement Nations for a 20-Year Period on the following ground:

The project, by promoting and facilitating the consumption of fossil fuel, violates the rights of future generations to a safe and stable atmosphere, guaranteed under the public trust doctrine.

I hereby ask the Office of Fossil Energy (FE) of the Department of Energy (DOE) to consider the rights of future generations to a safe and stable atmosphere, guaranteed under the public trust doctrine, in its review of the above-referenced application. Thank you.

Sincerely,

Curtis Morrison
