
**U.S. Department of Energy
Weatherization Assistance Program
National Recognition Awards
(Management/Administration)**

The U.S. Department of Energy's Weatherization Assistance Program National Recognition Awards serves to identify individuals and organizations at the Grantee or subgrantee level that consistently demonstrate program commitment. Through their initiative, these individuals and organizations make a significant contribution toward improving the management, administration, and service delivery within the Weatherization network.

Please nominate an **individual or group** you feel should be recognized for contributions to the Weatherization Assistance Program. While nominations are not limited to this, individuals or groups that have gone above and beyond to ensure the success of implementing The American Recovery and Reinvestment Act of 2009 deserve to be recognized.

Check the box next to each statement that best describes how relevant the information is to the nominee. Note that not all questions may be applicable to every nominee. Then, provide examples to support the rating. Additional information can be included on a separate sheet of paper and submitted with the nominating ballot.
