

Apply for Technical Assistance

Use this online form to request technical assistance from the DOE Office of Indian Energy for planning and implementing energy projects on tribal lands.

To help us determine whether your request fits within the program's scope and can be addressed with available resources, please provide the information below and then click on "Submit Request."

Only requests from federally recognized Indian Tribes, bands, nations, tribal energy resource development organizations, and other organized groups and communities—including Alaska Native villages or regional and village corporations—will be considered.

***Required**

Salutation*

- Mr.
- Mrs.
- Ms.
- Miss

First Name* _____

Last Name* _____

Title/Position* _____

Are you a designated tribal representative with the authority to request technical assistance on behalf of an Indian Tribe, Alaska Native village, Alaska regional corporation, or Alaska Native village corporation?*

- Yes
- No

Type of Affiliation:*

- Indian Tribe
- Alaska Native village
- Alaska regional corporation
- Alaska Native village corporation

Name of Affiliation* _____

Reservation Name or Location* _____

Address* _____

Address 2 _____

City* _____

State* _____

ZIP Code* _____

Phone* _____

Type of assistance requested (select one):*

- Strategic energy planning (on-site workshop designed to assist in understanding your resources, identifying options, and developing a viable road map)
- Project development support (expert technical guidance or analysis to help address specific barriers to project development). Select applicable project development areas (select all that apply):*
 - Third-party independent reviews of transmission studies, financing structures, lease agreements, project reports, etc.
 - Objective advice grounded in research and real-world experience with technologies
 - Modeling and analysis (or assistance in using available modeling/analysis tools)
 - Pre-feasibility transmission studies
 - Interconnection agreement facilitation
 - Economic evaluations
 - System design reviews
 - Other specific studies or analysis
 - Strategic communications planning (on-site workshop designed to assist in identifying target audiences, developing key messaging, and establishing a framework for a tribally owned and executed communications plan)
- Climate change preparedness and resiliency (expert technical assistance with understanding how to mitigate and plan for impacts of climate change) (select all that apply):
 - Mitigation (understand and measurably reduce the carbon impact from buildings, transportation, or energy sectors)
 - Impacts (understand the likely energy impacts of climate change on tribal lands and priority strategies for how to address those)
 - Preparedness (understand critical facilities and identify options for how to develop or redevelop those facilities for maximum preparedness)

Provide a concise description of the technical assistance being requested (please be specific):

Describe any time constraints, if any. (If none, state “No constraints.”)*

Relevant to the specific request, provide any applicable background information (e.g., location and size of the Reservation or village, energy resources, existing energy projects, previous technical assistance or DOE grants, or other past efforts):

Please let us know where you heard about the availability of technical assistance for tribal energy projects:
