

What is rate limiting in lighting and human factors research, and how we can accelerate it?

John P. Hanifin, Ph.D. &
George C. Brainard, Ph.D.

The Light Research Program
Thomas Jefferson University
Philadelphia, PA

- Break down research silos
- More interdisciplinary endeavours

Common Reporting Platform

- Report spectral signature of light source studied
- Calculate and report human photopigment illuminances relative to light sources

Measuring and using light in the melanopsin age Trends in Neurosciences 37(1): 1-9 (2014)
