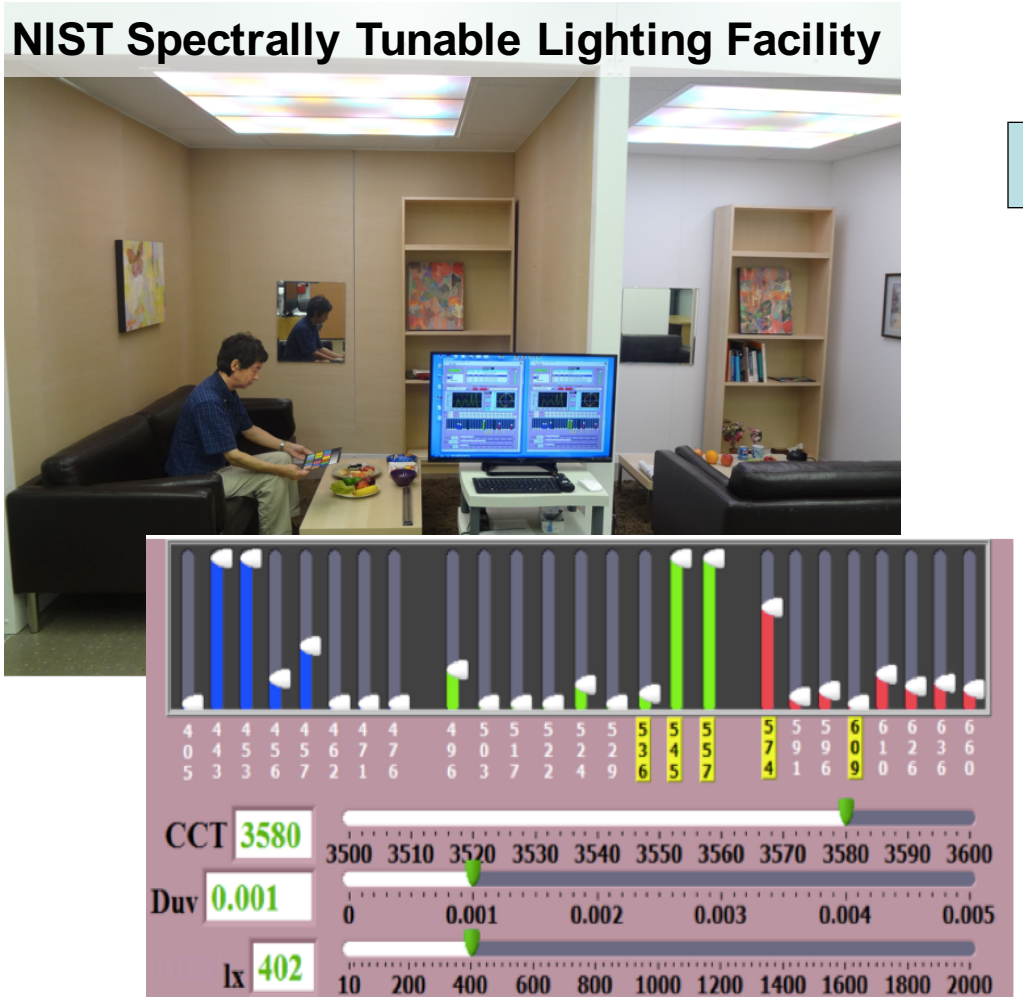
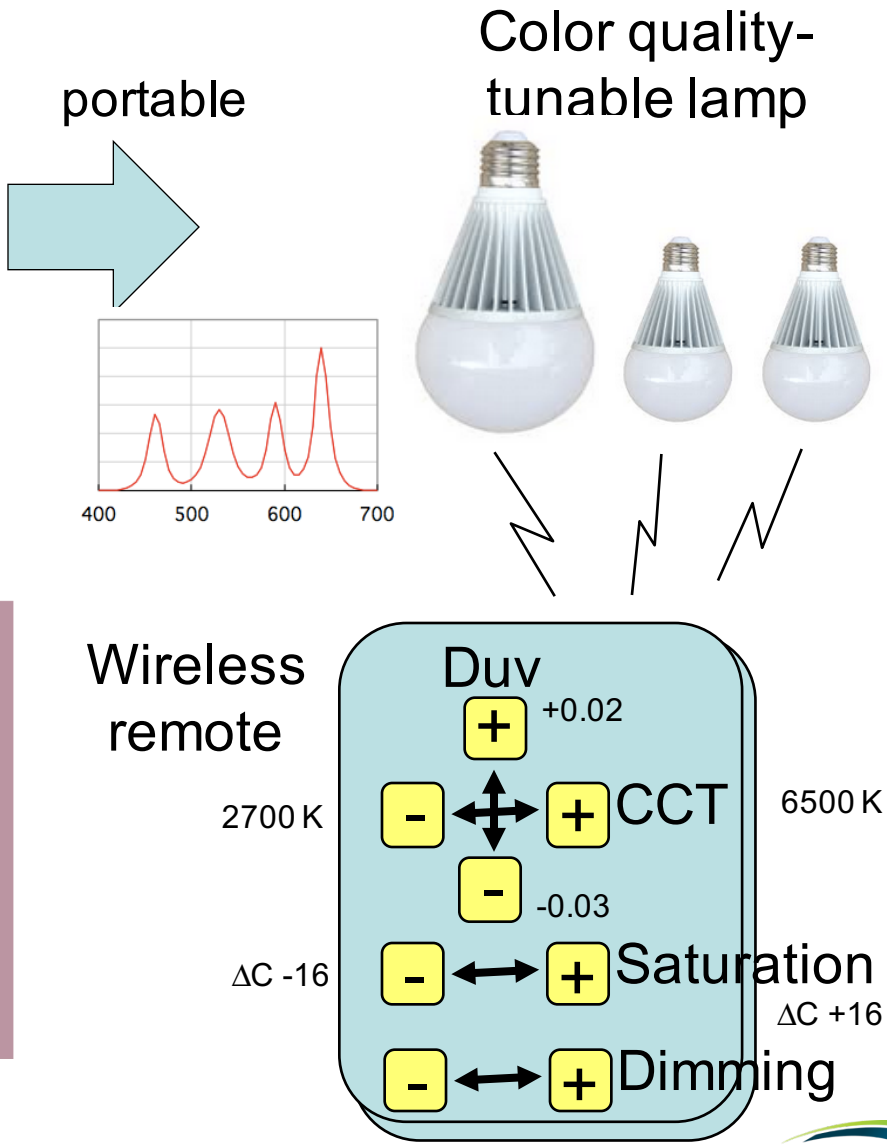
2016 DOE Solid-State Lighting R&D Workshop
Feb. 2-4, 2016, Raleigh, NC
Panel: Lighting and Human Factors

Color Quality Issues
– 5 min discussion –

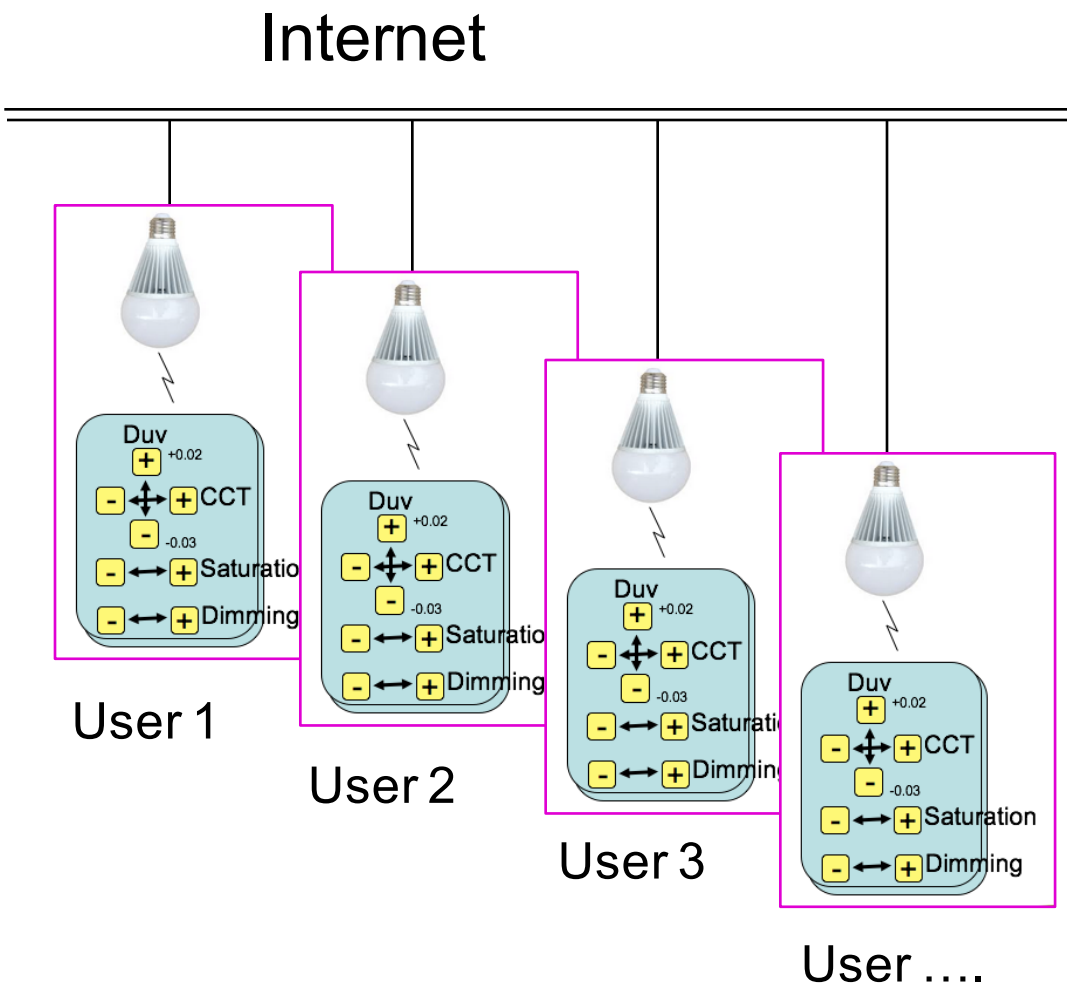
Yoshi Ohno

(1) “Color quality tunable lamp” for field tests of the preference effects (for researchers)





(2) Commercialize “Color-quality tunable lamp” with Internet connection (for automatic survey on people’s preference)



Information of what settings people use

Vast amount of users’ data on their preference
