Re: Jordan Cove Energy Project L.P.
Semi-Annual Report
DOE/FE Order No. 3413, FE Docket No. 12-32-LNG
DOE/FE Order No. 3041, FE Docket No. 11-127-LNG

Dear Sirs and Madams:

In compliance with Ordering Paragraphs M. and I. of the above-referenced Orders 3413 and 3041, respectively, Jordan Cove Energy Project L.P. (Jordan Cove) submits this semi-annual report on the progress of Jordan Cove's planned LNG terminal and liquefaction facility for the period from October 1, 2015 through March 31, 2016.

During the October through March period, Jordan Cove continued intensive negotiations with certain large-scale, prospective customers in the Asia Pacific region. On March 22, 2016, Veresen Inc., the owner of Jordan Cove, announced that it had finalized with JERA Co., Inc. (JERA), a joint venture of Tokyo Electric Power Company, Incorporated and Chubu Electric Power Co., Inc., key commercial terms for the long-term provision of natural gas liquefaction capacity at the Jordan Cove facility. The agreement covers at least 1.5 MMTPA for an initial term of 20 years. With JERA as the anchor customer, Jordan Cove expects that its continuing negotiations with other prospective customers will result in additional agreements in the near future.

On March 11, 2016, the Federal Energy Regulatory Commission (FERC) issued an order denying the Applications of Jordan Cove and Pacific Connector Gas Pipeline (PCGP) for authorization for the LNG terminal and liquefaction facility and the connecting pipeline,

respectively, in FERC Docket Nos. CP13-483-000 and CP13-492-000. Jordan Cove and PCGP will seek rehearing of that order.

Should you have any questions, please do not hesitate to contact me at (713) 400-2809.

Sincerely,

/s/ William M. Fowler
