

Notice of Availability; Request for Public Comment; and Request for Information Regarding Manufactured Housing

The U.S. Department of Energy (DOE) is proposing to establish energy conservation standards for manufactured housing. DOE prepared a **Draft Environmental Assessment (EA) and Request for Information on Impacts to Indoor Air Quality** to evaluate the potential environmental impacts of establishing the energy conservation standards. The Draft EA is available at the following website:

www.energy.gov/node/1840021

Public comments on the NEPA process, proposed action and alternatives, and environmental issues will be accepted until **August 15, 2016**. Comments may be submitted by letter to the attention of Mr. Roak Parker, U.S. Department of Energy, Golden Field Office, 15013 Denver West Parkway, Golden, CO 80401, or by e-mail to: RulemakingEAs@ee.doe.gov.
